Records of Town Clerk

Resigns from Planning Board

January 15, 1935

Ralph D. Merritt, Town Clerk,

Swampscott, Mass.

Having accepted appointment as a member of the Advisory Committee of the New England Regional Planning Commission, District No. 1, National Resources Board, I feel that the time required by serving on both the Advisory Committee and the Town Planning Board would be far more than I could give.

Believing that I can serve the town more by membership on the Advisory Committee, I hereby resign as a member of the Swampscott Planning Board Very truly yours,

GEORGE M. GLIDDEN.

Attest: RALPH D. MERRITT

Town Clerk.

Resigned From Finance Committee

January 11, 1935

Notice received on the above date that Andrew B. Holmes has resigned from the Finance Committee of the Town of Swampscott, on account of being a candidate for the office of Selectmen.

Attest: RALPH D. MERRITT.

Town Clerk.

TOWN WARRANT

Monday, February 18th, 1935

Essex, ss.

To either of the Constables of the town of Swampscott, in said County:

Greeting:

In the name of the Commonwealth of Massachusetts you are directed to notify the inhabitants of the town of Swampscott, qualified to vote in elections and in town affairs, to assemble in their respective precincts, in said Swampscott on Monday, the eighteenth day of February, at 6 A.M., then and there to act on the following articles, viz:

At the close of the election the meeting shall adjourn to Monday, February 25, 1935, at 7:45 P.M., at the Town Hall.

Article 1. To choose a Moderator for one (1) year. To choose a Town Clerk for one (1) year.

To choose three members of the Board of Selectmen for one (1)

To choose a Town Treasurer for three (3) years.

To choose one member of the Board of Assessors for three (3) years.

To choose a Collector of Taxes for three (3) years.

To choose one member of the School Committee for three (3) years. To choose one member of the board of Public Welfare for three (3) years.

To choose one member of the Board of Health for three (3) years. To choose one member of the Water and Sewerage Board for three

(3) years. To choose one member of the Park Commission for three (3) years. To choose one member of the Board of Trustees of the Public Library for three (3) years.

To choose one Tree Warden for one (1) year. To choose three Constables for one (1) year.

To choose one member of the Planning Board for two (2) years to fill vacancy.

To choose two members of the Planning Board for three (3) years. To choose one member of the Board of Commissioners of Trust Funds for three (3) years.

To choose eight (8) representative town meeting members in each precinct for three (3) years; To choose one representative town meeting member in precinct one for one (1) year; To choose one representative town meeting member in precinct one for two (2) years; To choose two representative town meeting members in precinct four for one (1) year. (The one and two year terms being to fill vacancies)

Article 2. To vote by ballot: Shall the following Chapter 82, Section 25, of the General Laws, Tercentenary edition, be accepted?

"In a town which accepts the provisions of this section or has accepted corresponding provisions of earlier laws, the selectmen, road commissioners or sewer commissioners may, when a town way is laid out, relocated or altered. enter and lay sewers and water pipes therein before possession is taken for the purpose of constructing such way, in like manner as if it had been actually constructed. Such entry shall not be deemed an entry for the purpose of constructing the way, and until such way has been constructed, sewer assessments shall be levied only upon the estates of persons connecting their drains with such sewers. If such laying out, relocation or alteration becomes void under the provisions of section three of chapter seventy-nine, all sewers or water pipes so laid therein shall be deemed to have been legally laid and placed therein; and damages may be recovered therefor under chapter seventynine; and the right to recover the same shall accrue when such laying out, alteration or widening becomes void. This section shall not apply to cities."

Article 3. To vote by ballot:

Shall the provisions of Chapter 31, Section 48, General Laws, Tercentenary edition, be accepted, thereby placing under Civil Service the call members of the Fire Department.

To hear and act on the reports of town officials, boards and Article 4.

committees.

Article 5. To see what amount of bonds will be required of the Town Clerk and Custodian of Trust Funds for the ensuing year. Article 5.

To see what action the town will take in relation to the recommendations not calling for the appropriation of money, as contained in the reports of officers, boards or committees.

To see what action the town will take in relation to salaries Article 7.

of town officials for the ensuing year.

Article 8. To see what action the town will take in relation to the recommendations calling for the appropriation or expenditure of money, the creation of a debt, or the disposition of town property, as set forth in the reports of officers, boards or committees.

Article 9. To see what action the town will take in relation to the appropriation of money for departmental and other expenses as recommended and set

forth in the Selectmen's report under the Town Budget.

Article 10. To see what action the town will take in relation to the

appropriation or raising of money for permanent street construction.

To see if the town will vote to purchase a 600-gallon triple combination motor pumper and equipment, to replace the old apparatus now in service at the Phillips Beach fire station, and appropriate \$8,100 therefor, as recommended by the Board of Fire Engineers.

To see if the town will vote to appropriate \$3,350 to replace old batteries and cables and make necessary changes and extensions in the

fire alarm system, as recommended by the Board of Fire Engineers.

Article 13. To see if the town will vote to appropriate \$490 for 500 feet

2½-inch fire hose, as recommended by the Board of Fire Engineers.

Article 14. To see if the town will vote to appropriate \$25,000 for a Selectmen's contingent fund to be disbursed by them for unemployment relief and ERA or similar projects, as recommended by the Board of Selectmen.

Article 15. To see if the town, in the event of the acceptance of Sec. 25,

Chapter 82 (Ter. Ed.) of the General Laws, will vote to authorize the laying of water mains in Foster road and or in Windsor avenue as provided in said section, and authorize the Selectmen to take the necessary steps therefor, and appropriate the sum of \$20,000 to be used on condition that an additional sum for such purpose is furnished by the Federal Government, and that the town shall receive deeds granting an easement or fee in such way or ways and a waiver of damages by the owners or persons holding interest therein; or vote to take such other action in relation thereto.

Article 16. To see if the town will vote to amend, modify or annul section 8 of Chapter 7 of the town by-laws insofar as the same may relate to the laying of water mains or doing other public work on Foster road and or in Windsor avenue.

Article 17. To see if the town will authorize the Board of Park Commissioners to finish filling and grading an area on the covered dump now in Phillips Park, large enough for use as a football gridiron, and erect a suitable chain link fence around same, and appropriate \$8,000 therefor, as recommended by the Park Commissioners.

Article 18. To see if the town will vote to appropriate the sum of \$100 for the salary of the secretary of the Planning Board for the year 1934, as voted in Article 21 in the special town meeting of April 4, 1934, but not making an appropriation therefor, as petitioned for by Herbert Ingalls.

Article 19. To see if the town will vote to appropriate the sum of \$97.46 to pay the bill of A. H. Jenkins & Son, Inc., for labor and materials furnished at Grand Army Hall in 1933 and remaining unpaid at the closing of the books for the year 1933.

Article 20. To see if the town will authorize the Board of Public Welfare to appoint one of its own members as agent and investigating officer and fix the salary of such an appointee of \$800 and appropriate money therefor, as provided by Chapter 41, Sec. 4A, of the General Laws (Ter. Ed.).

Article 21. To see if the town will vote to appropriate to the account of unpaid bills the sum of \$4,887.95, to cover bills of the departments named, contracted in 1934 and remaining unpaid at the time of the closing of the books for the year 1934: Public Welfare, \$4,514.41; Highway, \$50.85; Police, \$234.36; Legion Lease, \$13.33; Planning Board, \$75.

To see if the town will vote to accept Nason road (extreme end) as a public way, as laid out by the Board of Selectmen, in accordance with a plan made by W. W. Pratt, town engineer, and to appropriate money therefor,

as petitioned for by John E. Gill, et als.

Article 23. To see if the town will vote to remove the wooden blocks on Humphrey street and resurface same with some kind of permanent pavement and appropriate money therefor, as recommended by the Surveyor of High-

ways.

Article 24. To see if the town will vote to resurface Monument avenue (westerly side) from Burrill street to Farragut road and appropriate money therefor, as recommended by the Surveyor of Highways.

Article 25. To see if the town will vote to appropriate the sum of \$1,000 to clean the town beaches, as recommended by the Surveyor of Highways.

Article 26. To see if the town will vote to construct a surface water drain about 600 feet long to drain the low area between Burrill street, Elmwood road, Thomas road and Paradise road and appropriate money therefor, as petitioned for by Mildred Dressel Strauss, et als.

Article 27 To see if the town will vote to relay the water main in Elm place, a distance of about 450 feet, and appropriate money for the same, as

recommended by the Water and Sewerage board.

To see if the town will vote to relay the water main in Upland road, a distance of about 150 feet, and appropriate money for the same, as recommended by the Water and Sewerage board.

To see if the town will vote to extend the sewer in Nason road a distance of 200 feet and appropriate money for the same, as recommended by the Water and Sewerage board.

Article 30. To see if the town will vote to extend the sewer in Aspen road a distance of 360 feet and appropriate money for the same as recommended by

the Water and Sewerage board. To see if the town will authorize the Board of Public Welfare Article 31. to appoint an executive secretary and fix the salary of such appointee at the rate of \$1,560 per year, and appropriate money therefor, as provided by Chapter 41, Section 4A, of the General Laws, (Ter. Ed.) as petitioned for by Walter H. Forbes, Ir.

Article 32. To see if the town will authorize the Board of Assessors, the Park Commission, the Board of Public Welfare and the Planning Board to appoint a member of such boards to act as secretary thereof and receive pay therefor, as provided by Chapter 41, Section 4A, of the General Laws, (Ter. Ed.).

To see if the town will vote to have the tree removed in front of a proposed driveway at number 38 Grant road and appropriate money there-

for, as petitioned for by Richard Cutts and others.

Article 34. To see what action the town will take in relation to the appropriation of money for a World War Veteran's Honor Roll, as recommended by the Committee appointed by the last annual town meeting.

Article 35. To see if the town will vote to appropriate \$225 to make certain alterations on the G. A. R. Building to conform with the state building

laws relating to the occupancy of public buildings, as recommended by the

Board of Selectmen.

Article 36. To see if the town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money from to time to time in anticipation of the revenue of the financial year beginning January 1, 1935, and to issue a note or notes therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 37. To see if the town will vote to appropriate \$150 for the observance of Columbus Day under the jurisdiction of a citizens' committee appointed by the Board of Selectmen, as petitioned for by Louis LaParrella and others.

Article 38. To see if the town will vote to appropriate the sum of \$500 for the suitable celebration of Armistice Day, as recommended by the Board of Selectmen.

Article 39. To see if the town will vote to appropriate the sum of \$1,000 to celebrate Independence Day in a suitable manner, as recommended by the

Board of Selectmen.

To see if the town will vote to authorize the Moderator of the town meeting to appoint a committee of three or take such other action as it may deem advisable and report at the next town meeting, for the following purpose: To find out the cost and advisability of purchasing the property known as the Chick estate, adjacent to the rear of the present Junior High School, for school purposes.

Article 41. A. To see if the town will vote or take such other action in relation thereto as it may deem advisable to amend its bylaws so as to increase the number of the Selectmen from three to five members, the same to become

effective as of February, 1936.

To see if the town will vote or take such other action as it may deem advisable to have the terms of the Selectmen commencing February, 1936, as follows: The two selectmen receiving the highest number of votes to serve for three years; the two selectmen receiving the next highest number of votes to serve two years, and the selectman receiving the next highest number of votes to serve one year. Thereafter all selectmen to be elected for a term of three years; the Board of Selectmen to appoint its chairman from year to year.

To see if the town will vote or take such other action as it may deem fit and proper to change the salary of the members of the Board of Selectmen so that the chairman will receive a salary of \$350 a year, and that the associate members receive each a salary of \$250 a year, as petitioned for by Robert B.

Hegarty and others.

Article 42. To see if the town will vote to authorize the Moderator to appoint a committee consisting of the Board of Selectmen and three citizens of the town to investigate into the feasibility and expense of the laying out of a way ten feet wide leading from Stetson avenue through land adjacent to land of the Swampscott Tennis Club, under the Boston & Maine Railroad and over land of said railroad to Essex street for the use of pedestrians, and said committee report to this or some special town meeting before the next annual town meeting.

Article 43. To appropriate and raise by borrowing or otherwise under any general or special law which authorizes the town to raise money by borrowing or otherwise, such sum or sums of money as may be necessary for any or

all of the purposes mentioned in the foregoing articles.

The polls will close at 6 P.M.

And you are directed to serve this warrant by posting an attested copy thereof at the Town Hall, the Post Offices, at least one public and conspicuous place in each precinct in the town, and at or in the immediate vicinity of each railroad station in the town, seven days before the day appointed for said meeting.

Hereof fail not, and make due return of this warrant, with your doings

thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this thirty-first day of January, A. D., 1935.

KENNETH ULMAN,

ERNEST C. BLANCHARD,

PHILIP E. BESSOM,

Selectmen of Swampscott.

A true copy. Attest: WAYNE ANDERSON, Constable.

RETURN ON THE WARRANT

Pursuant to the within warrant to me directed, I have notified the legal voters of Swampscott, by posting attested copies of said warrant at the town Hall, Post Offices at least one public and conspicuous place in each precinct in the town and at or in the immediate vicinity of each railroad station in Swampscott on Friday, February 8, 1935, the posting of said notices being seven days before the time of said meeting.

WAYNE ANDERSON, Constable.

Annual Town Meeting Monday, February 18, 1935

In accordance with the foregoing warrant the voters of Swampscott assembled at their several precincts in the Town of Swampscott, and were called to order by the presiding officer in each precinct at 6 o'clock A.M. The warrant with the return thereon was read by the clerk in each precinct the polls opened at 6 A.M.

The following were appointed precinct officers and qualified for same: Precinct 1: Edward H. Jordan, warden; Wilbert J. Arsenault, clerk; John H. Keating, William H. Dow, inspectors; Bertram H. Thompson, Josephine H. Spinney, Lauretta M. Fournier, Winifred L. Amera, Charles R. Chambers, Ella J. Turner, tellers.

Adjourned to Monday evening, February 25, 1935, at the Town Hall at $7.45~\mathrm{P.M.}$

Adjourned at 9:55 P.M.

Attest:

RALPH D. MERRITT, Town Clerk.

Planning Board Resignation February 21, 1935

Resignation of Henry S. Baldwin from the Planning Board received on the above date, same to take effect at once, on account of business reasons.

Attest: RALPH D. MERRITT,
Town Clerk.

Adjourned Town Meeting Monday, February 25, 1935

In accordance with the adjournment of February 18, 1935, the town meeting members assembled at the Town Hall and were called to order by Ralph D. Merritt, Town Clerk, as the Moderator was absent, being ill. The new members were sworn in by the Town Clerk.

Kendall A. Sanderson was elected Moderator protem, and duly qualified

for the office.

Voted, article 4. That the report of the Committee on salaries, wages, and existing type of Town Government be accepted, and the recommendations, on salaries, be referred to the Finance Committee, they to bring in a warrant for a special town meeting on or before May 1, 1935.

The report of the Finance Committee was read by John H. Blodgett,

Chairman.

REPORT OF THE FINANCE COMMITTEE

To the Members of the Representative Town Meeting:

The town budget for 1935 is larger than last year in two principal items:

Public Welfare and the Reserve Fund.

Because the tax rate is now fixed April 1 instead of October 1 there can be no special town meetings for appropriations of money to come from the tax levy. Therefore to take care of any emergencies the State authorities advise increasing the Reserve Fund.

The finance committee have reluctantly increased the reserve fund to \$33,000. As all transfers from this fund have to be made with the approval of the finance committee it places an unusual amount of work on the committee

and also a great responsibility.

We hope that the officers of the town will realize that this fund is set up for emergencies and that they will not feel that because it is there they should find some way to spend it. There is no question that our tax rate will be increased this year over 1934. At this time it is impossible to even hazard a guess as to the State tax but indications are it will be larger.

The Board of Public Welfare has been forced to ask for a larger appropriation. We believe that the elected officers of this board should be free to give their time to the general policies of the board. An elected officer can not be an unbiased investigator. An investigator should be free from politics. Neither

should one of the members of the board be taking his time as clerk. A paid clerk outside of the board keeping the records should be cheaper. For these reasons we have made our recommendations in Articles 20 and 31.

Article 2.—We believe that the adoption of this article will prove to be very costly to the town in future years. It is placed in the warrant for the immediate purpose of laying pipes in the Foster Dam section. This will immediately be followed by the demand for sewers and the whole project will run into several hundred thousand dollars. It also puts the town into a real estate development. The return in taxes to the town from this section does not warrant starting this project.

We recommend that the voters of the town vote no on this article.

Article 3.—We can see no advantage to the town in placing call firemen under Civil Service. We believe the Fire Department can be operated more efficiently in allowing the chief to recommend the appointment of call men whom he believes will be of service to the department. There is the further danger that under Civil Service there will be a larger expense to the town.

We recommend that the voters of the town vote no on this article.

Article 5.—We recommend that the town clerk be required to furnish a bond in the amount of one thousand dollars and the custodian of Trust Funds be required to furnish a bond in the sum of ten thousand dollars for the ensuing year.

Article 7.—We recommend that the salaries of all elected town officers for the year of 1935 be the same as that of 1934.

Article 8.—We recommend that action on this article be indefinitely postponed.

Article 9.—We recommend that the item for water of \$76,837.25 be taken from the estimated receipts of the Water Department for the current year.

We recommend that the following amounts be appropriated for the various departments for the ensuing year.

General Government

	Salaries		
	and Wages	Others	Total
Town Meeting		\$100.00	\$100.00
Moderator	\$100.00		100.00

Article 10.—We believe that the town should each year spend a certain amount of money for permanent street construction, but not until the Town Engineer has laid out a comprehensive plan which can be carried out yearly. No plan has been presented as yet.

We therefore recommend for the reasons stated that action on this article

be indefinitely postponed.

Article 11.—The town should either purchase a new engine for the Phillips Beach section or discontinue the present apparatus. The present apparatus is antiquated and it is risking the lives of the men each time it responds to an alarm. We believe the apparatus recommended by the Board of Fire Engineers is large enough to serve the section.

We therefore recommend that the Board of Fire Engineers, together with the Chief of the Fire Department be authorized to purchase a 600 gallon triple combination motor pumper and equipment for the Phillips Beach Fire Station and that \$8,100 be appropriated therefor and that they be further

authorized to dispose of the present old apparatus.

Article 12.—The old fire alarm cable running from Reddington street to the Central Fire Station is in very bad repair, and a new cable is badly needed. Also the batteries of the fire alarm system are old and should be replaced.

We therefore recommend that the sum of \$3,350 be appropriated for the purpose of laying a new cable and the purchase of new batteries for the fire

alarm system as recommended by the Board of Fire Engineers.

Article 13.—We recommend that \$490 be appropriated for the purpose of purchasing five hundred feet of 2 1-2 inch fire hose as recommended by the

Board of Fire Engineers.

Article 14.—As the town will be unable to appropriate any money after April I to come out of the tax levy, we do not feel it advisable to appropriate the sum asked for in this article for unemployment and ERA, as ERA may go out of existence and other government agencies take its place and the money will therefore be tied up. We have set up a sufficient Reserve Fund which is more elastic and we believe all emergencies can be taken care of from this fund.

We recommend that action on this article be indefinitely postponed.

Articles 15 and 16.—These two articles pertain to Swampscott Highlands or Foster's Dam, and should be considered together. The project was very thoroughly gone into by the committee appointed last year to investigate the possibilities of furnishing water for the so-called Foster Dam district and a report rendered to the special town meeting under date of October 15, 1934. The recommendation of that committee was that no appropriation of money be made at that time to lay water pipes in the Foster Dam section. In our opinion the same condition applies today.

We therefore recommend indefinite postponement of articles 15 and 16. Article 17.—For the same reasons as given in past years, we believe that the athletic development should be made at Jackson Park and that the money

should be appropriated for sufficient loam to cover that field.

We therefore recommend that action on this article be indefinitely post-

Article 18.—The Planning Board is not a paid board, and we do not believe that the town should pay a member of this board to act as secretary.

We recommend that action on this article be indefinitely postponed.

Article 19.—We recommend that \$97.46 be appropriated to pay a bill dated June 1, 1934, of A. H. Jenkins & Son, Inc., for labor and material at G. A. R. Hall.

Article 20.—We believe that no elective officer of the Board of Public Welfare should be appointed investigator, clerk or executive secretary of this board.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 21.—We recommend that the following sums be appropriated to the account of unpaid bills contracted in 1934. Public Welfare, \$4,514.41; Highway, \$50.85; Police, \$234.36; Legion lease, \$13.33; Planning Board, \$75.00. Total, \$4,887.95.

Article 22.—We recommend that Nason road be accepted as a public way as laid out by the Board of Selectmen in accordance with the plan made by W. W. Pratt, Town Engineer, and that \$600 be appropriated therefore.

Article 23.—We do not believe that anything should be done regarding the re-paving of the wooden blocks on Humphrey street until the car tracks are removed which, we understand will probably take place in a few years. We believe that the Highway Department can repair the street during this period. We therefore recommend that action on this article be indefinitely post-

Article 24.—We find that the surface of Monument avenue (westerly

side) from Burrill street to Farragut road, to be in a very bad condition.

We recommend that \$5,000 be appropriated to re-surface Monument avenue, (westerly side) from Burrill street to Farragut road as recommended by the Surveyor of Highways.

Article 25.—This article has already been taken care of in the general

budget.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 26.—Money was appropriated last year under an ERA project to construct a surface water drain between Burrill street and Elmwood road, Thomas road and Paradise road, but the town was unable to get waivers from all parties interested and were unable to do the work. We understand that the same situation exists today.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 27.—We recommend that the sum of \$785 be transferred from the Water Available Surplus for the purpose of laying 450 feet of water main in Elm place as recommended by the Water and Sewerage Board.

Article 28.—We recommend that the sum of \$285 be transferred from the Water Available Surplus for the purpose of laying 150 feet of water main in Upland road as recommended by the Water and Sewerage Board.

Article 29.—We recommend that the sewer in Nason road be extended a distance of 200 feet and that one thousand dollars be appropriated therefor as recommended by the Water and Sewerage Board.

Article 30.—We recommend that the sewer on Aspen road be extended a distance of 360 feet and the sum of \$2,400 be appropriated therefor as recom-

mended by the Water and Sewerage Board.

Article 31.—For the same reasons that we set forth under Article 20, no elected officer should become investigator, clerk or executive secretary of the board.

We recommend that action on this article be indefinitely postponed. Article 32.—We do not believe that it is necessary that the town pay the salary of a secretary for the Board of Assessors, Board of Public Welfare, the Park commission and the Planning Board.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 33.—We recommend that action on this article be referred to the Tree Warden.

Article 34.—We feel that a suitable memorial should be erected for those who served in the World War. However, in view of unforseen demands that the town may be called upon to meet during the year and a probable increase in the tax rate for 1935 we consider it unadvisable to recommend the expenditure of \$4,800 for a War Veterans Honor Roll at this time.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 35.—We find that the State Building Laws require certain changes

to be made in the G. A. R. building.

We therefore recommend that the sum of \$225 be appropriated to make alterations on the G. A. R. building to conform to the State building laws, as recommended by the Board of Selectmen.

Article 36.—We recommend that the Town Treasurer, with the approval of the Selectmen, be and hereby is authorized to borrow up to \$600,000 from time to time in anticipation of the revenue of the financial year beginning January 1, 1935, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws.

Article 37.—Because there are so many calls on the town treasury and tax payers for unemployment relief and public welfare, we feel it unadvisable at this time to appropriate money for the celebration of Columbus Day.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 38.—Because there are so many calls on the town treasury and tax payers for unemployment relief and public welfare, we feel it unadvisable at this time to appropriate money for the celebration of Armistice Day.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 39.—Because there are so many calls on the town treasury and tax payers for unemployment relief and public welfare, we feel it unadvisable at this time to appropriate money for the celebration of Independence Day.

We therefore recommend that action on this article be indefinitely post-

poned.

Article 40.—We recommend that the Moderator be authorized to appoint a committee of three to investigate the advisability of purchasing the Chick estate for school purposes and to report back to the special town meeting.

Article 41, Section C.—We believe that the office of Selectmen should be

an honor and not a question of salary.

We recommend that the Chairman of the Board of Selectmen receive

\$300 a year and each of the other members \$200.

Article 42.—We recommend that the Board of Selectmen together with three citizens appointed by the Moderator be a committee to investigate the feasibility and expense of constructing the so called Stetson avenue under pass.

That they report at the next special town meeting.

Article 42 1-2.—In the case of a special town meeting, the time between the posting of the warrant and the meeting is too short. It would, in most cases, be physically impossible for the Finance committee to have enough time to consider the warrant and also have a report printed and mailed in time to reach town meeting members forty-eight hours before the meeting. If this article is passed, the Finance committee would have to ask an adjournment of every special town meeting to a later date, thus forcing the members to attend two meetings instead of one.

We recommend that action on this article be indefinitely postponed. Article 43.—We recommend that action on this article be indefinitely post-

poned.

JOHN H. BLODGETT, Chairman, CLARENCE M. FINCH, ROBERT F. KIMBALL, ROBERT M. LEONARD, HAROLD F. MERRILL, ROGER W. POPE, ANSON M. TITUS, Fina

Finance Committee.

Voted, article 5. To accept the report of the Finance Committee and adopt

their recommendations as follows:

That the Town Clerk be required to furnish a bond in the amount of one thousand dollars (\$1,000.) and the custodian of Trust Funds be required to furnish a bond in the sum of ten thousand dollars (\$10,000.) for the ensuing year.

year.

Voted, article 6. That action on this article be indefinitely postponed.

Voted, article 7. To accept the report of the Finance Committee and adopt their recommendations as follows:

That the salaries of all elected town officers for the year 1935 be the same

as that of 1934.

Voted, article 8. To accept the report of the Finance Committee and adopt their recommendations as follows:

Action on this article be indefinitely postponed.

Voted, article 9. To accept the report of the Finance Committee and adopt their recommendations as follows:

That the item for water of \$76,837.25 be taken from the estimated receipts

of the Water Department for the current year.

That the following amounts be appropriated for the various departments for the ensuing year (Unanimous).

Voted, article 10. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 11. To accept the report of the Finance Committee and

adopt their recommendations as amended:

That the Board of Fire Engineers, together with the Chief of the Fire Department, the Chairman of the Board of Selectmen, Philip E. Bessom, the Chairman of the Finance Committee, John H. Blodgett, and Ralph Maxwell, be authorized to purchase a 600-gallon triple combination motor pumper and equipment for the Phillips Beach Fire Station and that \$8,100. be appropriated therefor and that they be further authorized to dispose of the present old apparatus.

To accept the report of the Finance Committee and Voted, article 12.

adopt their recommendations as follows:

That the sum of \$3,350. be appropriated for the purpose of laying a new

cable and purchase of new batteries for the Fire Alarm system.

Voted, article 13. To accept the report of the Finance Committee and adopt their recommendations as follows:

That \$490 be appropriated for the purpose of purchasing five hundred feet

of 21/2 inch fire hose.

Voted, article 14. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, to take up together articles 15 and 16.

Voted, article 15 and 16. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action on articles 15 and 16 be indefinitely postponed.

Voted, article 17. To accept the report of the Finance Committee and

adopt their recommendations as amended:

That the town authorize the Board of Park Commissioners to finish filling and grading an area on the covered dump now in Phillips Park, large enough for use as a football gridiron and erect a suitable chain link fence arround same and appropriate \$8,000 for same.

Under article 18. To accept the report of the Finance Committee and adopt their recommendations to indefinitely postpone, action on this article was lost.

Voted, article 18. To appropriate the sum of \$75 for the salary of the secretary of the Planning Board for the year 1934, as voted in article 21 in the special town meeting of April 4, 1934, but not making an appropriation at the April 4, 1934, meeting.

Voted, article 19. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That \$97.46 be appropriated to pay a bill dated June 1, 1934, of A. H. Jenkins & Sons Inc. for labor and material at G. A. R. Hall.

Voted, article 20. To accept the report of the Finance Committee and

adopt their recommendations as amended:

That the town will authorize the Board of Public Welfare to appoint one of its own members as agent and investigating officer and fix the salary of such an appointee at \$800, and appropriate the money therefor, as provided by Chapter 41, Sec. 4A, of the General Laws (Ter. Ed.)

A motion to adjourn the Town Meeting was lost.

Voted, article 21. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the following sums be appropriated to the account of unpaid bills contracted in 1934; Public Welfare, \$4,514.41; Highway, \$50.85; Police \$234.36; Legion lease, \$13.33; total \$4,812.95.

Voted, article 22. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That Nason road be accepted as a public way as laid out by the Board of Selectmen in accordance with the plan made by W. W. Pratt, Town Engineer, and that \$600 be appropriated therefor.

Voted, article 23. To accept the report of the Finance Committee and

adopt their recommendations as amended.

That the Board of Selectmen are hereby instructed to take such steps that may be necessary to have the State and County each bear one-third of the expense of removing the wooden block pavements and resurfacing the same with some kind of permanent pavement.

Voted, article 24. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That Monument avenue (on its westerly side) from Burrill Street to Farragut road be resurfaced with bituminous Macadam construction, under specification approved by the Division of Highways of the Department of Public Works of the Commonwealth. That the Board of Selectmen be authorized to enter into a contract for the same in behalf of the town, subject to the provisions of the by-laws, and for this purpose that the sum of \$5000 be appropriated of which \$1,165.69 be raised in the tax levy of the current year and the balance be raised by transfer of unexpended balances in accounts used for similar purposes, namely, Monument Ave. Walker road account, \$624.38; Phillips avenue extension account, \$1,541.09; Whitman road account, \$1.668.84.

Voted, article 25. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action under this article be indefinitely postponed.

Voted, article 26. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action under this article be indefinitely postponed. Voted, article 27. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sum of \$785 be transferred from the Water Available Surplus for the purpose of laying 450 feet of water main in Elm place, as recommended by the Water and Sewerage Board.

Voted, article 28. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sum of \$285 be transferred from the Water Available Surplus for the purpose of laying 150 feet of water main in Upland road, as recommended by the Water and Sewerage Board.

Voted, article 29. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sewer in Nason road be extended a distance of 200 feet and that one thousand dollars (\$1,000.) be appropriated therefor as recommended by the Water and Sewerage Board.

Voted, article 30. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sewer on Aspen road be extended a distance of 360 feet and the sum of \$2,400 be appropriated therefor as recommended by the Water and Sewerage Board.

Voted, article 31. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 32. That the Board of Assessors, Planning Board, Park Commissioners and Board of Public Welfare, be authorized to appoint a member of their boards to act as secretary, and that \$100 be added to each of their appropriations for that purpose, as provided by Chapter 41, Section 4A of the General Laws (Ter Ed.)

Voted, article 33. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 34. That the report of the Honor Roll Committee be accepted and adopted and the committee be authorized to establish the Memorial, and that the sum of \$4800 be appropriated therefor.

Voted, article 35. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sum of \$225 be appropriated to make alterations on the G. A. R. building to conform to the State Building Laws, as recommended by the Board of Selectmen.

Voted, article 36. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the Treasurer with the approval of the Selectmen, be and hereby is authorized to borrow up to \$600,000 from time to time in anticipation of the revenue of the financial year beginning January 1, 1935, and to issue a note or notes therefor, payable within one year and to renew any note or notes as may be given for a period of less than one year in accordance with Section 17, Chapter 44, General Laws. (Unanimous.)

Voted to take up articles 37, 38 and 39 together.

Voted, articles 37, 38 and 39 to accept the report of the Finance Committee and adopt their recommendations as follows:

That action on articles 37, 38 and 39 be indefinitely postponed.

Voted, article 40. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That a committee of five appointed by the temporary Moderator to investigate and report with recommendations at a special town meeting to be called not later than March 25, 1935, as to the cost and advisability of purchasing the Chick estate, adjacent to the present Junior High School, for school purposes.

Voted, article 41. That this matter be referred to the Finance Committee, and they to report at the special town meeting on or before May 1, 1935

Voted, article 42. That this matter be referred to the Finance Committee, and they to report at the Special town meeting on or before May 1, 1935.

Voted, article 42½. That this matter be referred to the Finance Committee and they to report at the special town meeting on or before May 1, 1935.

Voted, article 43. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action under this article be indefinitely postponed.

Voted, to dissolve at 12:10 P.M.

Dissolved at 12:10 P.M.

Attest: RALPH D. MERRITT,
Town Clerk.

Chick Property Committee Appointed

February 26, 1935.

In accordance with the vote of the Town Meeting held February 25, 1935, in connection with Article 40 of the warrant, Kendall A. Sanderson, temporary Moderator, appointed the following committee to investigate the matter of the taking of the Chick property for school purposes:

Philip E. Bessom, Leo J. Coughlin, Philip A. Graham, Ruth S. Miller, Earl E. Wells,

Attest:

Meeting to Fill Vacancy

March 8, 1935.

At a joint conference of the Board of Selectmen and the Planning Board called for the purpose of filling the vacancy caused by the resignation of Henry S. Baldwin, Edward E. Call was unanimous chosen to fill the vacancy until the next annual meeting.

Attest:

RALPH D. MERRITT, Town Clerk.

Added to Finance Committee March 23, 1935

Notice received on the above date from John R. Hurlburt, Moderator, of the appointment of Andrew B. Holmes, from Precinct 1; Frank B. Drummond, Precinct 2 and Anson M. Titus, Precinct 4, as members of the Finance Committee of the town of Swampscott.

Attest: RALPH D. MERRITT,
Town Clerk.

Special Town Meeting, Monday, March 25, 1935

Feery es

To either of the constables of the town of Swampscott in said county:

Greeting:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify the inhabitants of the town of Swampscott, qualified to vote in elections and in town affairs, to assemble in the Town Hall in said Swampscott on Monday, the twenty-fifth day of March, at 7:45 P. M., then and there to act on the following articles, viz:

Article 1. To see if the town will vote to authorize the Board of Selectmen to acquire by purchase, for public school purposes and the location of a new high school, the real estate located on Elmwood road, Redington street, Humphrey street and Monument avenue, more fully described as set forth below, or any of the same assessed to the heirs of Isaac W. Chick, and appro-

priate money therefor.

Beginning on Burrill street at the intersection of the property of George H. Holden and Isaac W. Chick Est., thence westerly by Burrill street, one-hundred six and seventy-one one hundreths feet, (106.71) to a point of curve, thence curving to the right with a radius of seventy-nine and sixty-one one hundreths feet (79.61) for a distance of one hundred and one and eighty-eight one hundredths feet (101.88); thence, curving to the right with a radius of one thousand, four hundred thirty-two and sixty-nine one hundredths feet (1432.-69) by the easterly side of Monument avenue, for a distance of two hundred eight and eighty-nine one hundredths feet (208.89); thence curving to the right with a radius of eighty feet, (80.00) for a distance of one hundred eight and two one hundredths feet (108.02); thence curving to the left with a radius of three hundred and forty feet, (340.00) along the southerly side of Elmwood road for a distance of two hundred thirty-eight and thirty-three one hundredths feet, (238.33) to the intersection of the southerly line of Elmwood road and the westerly line of land owned by the Swampscott Hall Association; thence southeast by land of Swampscott Hall Association and Isaac W. Chick Est., one hundred eight feet (108.00); thence westerly by land of Addie F. Andrews and Isaac W. Chick Est., fifty-four and twenty-four one hundredths feet, (54.24) thence southeasterly by land of Addie F. Andrews and Isaac W. Chick Est., one hundred fifty-three feet plus or minus (153.00+) to the northerly line of

Redington street; thence westerly by Redington street, seventy-one and fifty one hundredths feet (71.50) to the easterly line of the Hadley School property and the Isaac W. Chick Est., thence, by the Hadley School property and the Isaac W. Chick Est., thence, by the Hadley School property and the Isaac W. Chick Est., by five courses, northwesterly one hundred fifty-two and five tenths feet plus or minus (152.50+—) thence westerly one hundred seventy-six and six-tenths feet plus or minus (177.60+—) thence northwesterly four and sixty two one hundredths feet (4.62); thence westerly seventy-two and seventeen one hundredths feet, (72.17): thence southeasterly, sixty-four and seventy-five one hundredths feet, (64.75) to the northeast corner of land of George H. Holden; thence southwesterly by land of George H. Holden and the Isaac W. Chick Est., ninety-seven and sixty-one one hundredths feet (97.61) to the point of beginning. The above described property contains 102.639 square feet.

Article 2. To see if the town will vote to transfer Phillips Park, or any portion of the same, from the Park Commission to the School Committee. under the provisions of Chapter 310 of the Acts of 1930, for the purposes of a

public high school.

Article 3. To see if the town will vote to build, erect, equip and furnish, upon either of the locations described in the foregoing articles, a public high school and grounds around the same, and appropriate money therefor.

To see if the town will vote to remodel, rebuild, or add to the

present high school, and appropriate money therefor.

Article 5. To see if the town will vote to authorize the Moderator to appoint a committee to proceed with the construction, erection, rebuilding, remodeling, addition, equipment, furnishing and completion of such high school as it may determine upon under any of the foregoing articles, with power, in the name and behalf of the town, to employ an architect, enter into contracts and do all things necessary, incidental or convenient to the erection, equipment, furnishing and completion of such school.

Article 6. To see if the town will authorize and instruct the school committee, the Board of Selectmen, either or both, to apply to the proper Federal authorities for a grant of Federal funds to be used in connection with the

erection and equipment of a new high school.

Article 7. To see if the town will vote to construct a high school and ap-

propriate money therefor.

Article 8. To see if the town will vote to transfer from Cemetery Lots Fund Income, the sum of one thousand sixty-seven dollars and thirty cents, (\$1,067.30) and from Cemetery Lots Fund the sum of ten thousand nine hundred and thirty-two dollars and seventy cents, a total of twelve thousand dollars (\$12,000.00) to the account of Cemetery Improvement for the purpose of continuing the work at the cemetery.

Article 9. To see if the town will vote to enclose Hawthorne brook for a distance of approximately thirteen hundred and seventy-five (1375), feet and

appropriate money therefor.

To see if the town will vote to appropriate the sum of one hundred fifty-eight (\$158) dollars for the purpose of closing out the unpaid bal-

ance of 1933 Old Age Assistance taxes which are uncollectable.

Article 11. To see if the town will vote to appropriate the sum of fiftyfive hundred (\$5500) dollars to the account of sewer construction for continuing the work on the Stanley road, Linden avenue, Crosman avenue and Allen road sewers, the work to be carried on as heretofore under the direction of the Water and Sewerage Commissioners.

Article 12. To appropriate and raise by borrowing or otherwise, under any general or special law which authorizes the town to raise money by borrowing or otherwise, such sum or sums of money as may be necessary for any or

all of the purposes mentioned in the foregoing articles.

And you are directed to serve this warrant by posting attested copies thereof at the Town Hall, Post Offices and in at least one public and conspicuous place in each precinct of the town and at or in the immediate vicinity of each railroad station in the town seven days before the day appointed for said meeting.

Hereof fail not, and make due return of this warrant, with your doings

thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this fourteenth day of March, A. D., 1935.

PHILIP E. BESSOM. LESTER B. MORLEY. R. WYER GREENE

Selectmen of Swampscott.

Attest: A true copy.

FRANK H. BRADFORD, Constable.

RETURN ON THE WARRANT

Pursuant to the within warrant to me directed, I have notified the legal voters of Swampscott, by posting attested copies of said warrant at the Town Hall, Post Offices at least one public and conspicuous place in each precinct in the town, and at or in the immediate vicinity of each railroad station in Swampscott, on Saturday, March 16, 1935, the posting of said notices being seven days before the time of said meeting.

FRANK H. BRADFORD. Constable.

Special Town Meeting Monday, March 25, 1935

In accordance with the foregoing warrant the town meeting members assembled at the Town Hall, and were called to order by John R. Hurlburt. Moderator, the necessary quorum being present (107).

The warrant with the return thereon was read by the Town Clerk.

Report of the special committee on the advisability of purchasing the Chick estate for school purposes, was read by Philip E. Bessom, Chairman.

Voted, that the report of the special committee be accepted and the committee discharged.

Report of the Planning Board was read by Daniel Santry.

Voted to accept the report of the Planning Board.

The minority report of the Planning Board was read by Thomas B. Epps.

Voted to accept the minority report of the Planning Board.

The report of the Finance Committee was read by Anson M. Titus.

Motion that articles 1 to 7 inclusive be considered together was lost. An amendment offered by Robert Hegarty to the Finance Committee report, viz.:

That a committee of nine, one from each precinct, and one member at large be appointed by the Moderator to study the needs of a new High School, the advisability of adding to the present High School and the selection of a new site if necessary, was lost. For, 55; No, 93.

Article 1. Motion to accept the report of the Finance Committee and

adopt their recommendations, viz:

That a committee of five be appointed by the Moderator to investigate the proposed site for a High School, that said committee have sketches made and estimates of the costs of the building to be erected, also estimates for grading and equipment. That this committee take all necessary action to bring the information before the citizens of the town. That \$500 be appropriated for the expense of the committee. Motion lost.

Voted, that Article 2 and 3 be taken up together.

Voted, Articles 2 and 3. To accept the report of the Finance Committee

and adopt their recommendations as amended:

That the sum of six thousand dollars (\$6000) be appropriated to be raised by taxation and to be applied toward the erection and equipping of a high school. That a committee of five be appointed by the Moderator, and said committee be and hereby is authorized to appoint and engage an architect and prepare plans, estimates and specifications for the erection and equipping of such high school on Phillips Park, and also on the present site, and to pay for such plans and other expense incurred under this vote out of this appropriation. In case during the current year the town votes to issue bonds for this purpose under any act that may require the appropriation of 25c per one thousand dollars of the assessed valuation out of taxation, the amount of \$6000 appropriated by this vote is intended as such appropriation out of taxation.

Said committee is also authorized to make application for a grant of Federal aid for such purpose, file with all Federal and State authorities plans, and other information incidental thereto; and to accept such grant provided that the committee determines that the amount and conditions of the grant are such that acceptance is desirable.

Said committee shall proceed at once, report back to the town as soon as can be done at a special town meeting to be called. Said committee shall also obtain information and make report on the cost of enlarging, remodelling or

adding to the present school.

Said committee is also authorized to petition the Legislature to extend or modify or both Chapter 262 of the Acts of 1930.

Voted, article 4. That action under this article be indefinitely postponed. Voted, article 5, 6 and 7 be taken up together. Voted, article 5, 6 and 7. That action under articles 5, 6 and 7 be in-

definitely postponed.

Voted, article 8. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sum of \$1,067.30 be transferred from the Cemetery Lots Fund Income and the sum of \$10,932.70 from the Cemetery Lots Fund, a total of \$12,000.00, to the account of Cemetery Improvement for the purpose of continuing the work at the cemetery.

Motion to accept the report of the Finance Committee and adopt their

recommendations under article 9, viz:

That Hawthorne brook be enclosed for a distance of approximately thirteen hundred and seventy-five (1,375) feet and that ten thousand dollars (\$10,000.) be appropriated to start this work, provided, however, that the Selectmen may use the fund for that purpose only upon condition that the work is accepted as an ERA project and Federal money applied thereto. Motion lost. Voted, article 10. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sum of \$158. be appropriated for the purpose of closing out the unpaid balance of 1933 Old Age Assistance taxes.

Motion to accept the report of the Finance Committee and adopt their

recommendations under Article 11 as follows:

That the sum of fifty-five hundred dollars (\$5,500.) be appropriated to the account of sewer construction to continue the work on Stanley road, Linden avenue, Crosman avenue, and Allen road sewers, the work to be carried on as heretofore under the direction of the Water and Sewerage Commissioners. Motion was lost.

Voted, article 12. That action under this article be indefinitely post-

poned.

Voted to dissolve. Dissolved at 10:20 P.M.

Attest: RALPH D. MERRITT,

Town Clerk.

Proposed High School Committee March 28, 1935

Town Clerk.

Special Town Meeting, Wednesday, May 1, 1935

Essex, ss.

To either of the Constables of the town of Swampscott, in said County:

In the name of the Commonwealth of Massachusetts you are hereby directed to notify the inhabitants of the town of Swampscott, qualified to vote in elections and in town affairs, to assemble in the Town Hall in said Swampscott on Wednesday, the first day of May, at 7:45 P. M., then and there to act on the following articles, viz:

To see what action the town will take concerning the recommendation of the Committee on Salaries, appearing on page 6 of the Com-

mittee's report, relative to salaries of Selectmen.

Article 2. To see what action the town will take concerning the recommendation of the Committee on Salaries, appearing on page 8 of the Committee's report, relative to salaries of Water and Sewerage Commissioners.

Article 3. To see what action the town will take concerning the recom-

mendation of the Committee on Salaries, appearing on page 9 of the Committee's report, relative to salary of the Surveyor of Highways.

Article 4. To see what action the town will take concerning the recommendation of the Committee on Salaries, appearing on page 17 of the Committee's report, relative to the appointment of a committee to study the question of consolidation of town departments.

Article 5. To see what action the town will take concerning the recommendation of the Committee on Salaries, appearing on page 26 of the Com-

mittee's report, relative to a Board of Public Works.

Article 6. To see if the town will authorize the continuation to completion of the work on the Crosman avenue, Linden avenue, Stanley road and Allen road sewers, now being constructed as an ERA project, the work to be carried on as heretofore under the direction of the Water and Sewerage Board, the amount required to complete the work, not to exceed thirty-one hundred (\$3100) dollars to be obtained by transfer of any available funds to the account of sewer construction.

Article 7. To see if the town will authorize the Board of Selectmen to tear down, sell or dispose of, at their discretion, the old Palmer School building, on Humphrey street, and to sell the land, on which the building stands, now

owned by the town.

Article 8. To see what action the town will take relative to the following articles appearing in the annual town warrant of February 18 and referred to

this meeting by vote of the adjourned annual town meeting:

To see if the town will vote or take such other action in relation thereto as it may deem advisable to amend its by-laws so as to increase the number of the Selectmen from three to five members, the same to become

effective as of February, 1936.

To see if the town will vote or take such other action as it may deem advisable to have the terms of the Selectmen commencing February, 1936, as follows: The two Selectmen receiving the highest number of votes to serve for three years; the two Selectmen receiving the next highest number of votes to serve two years, and the Selectmen receiving the next highest number of votes to serve one year. Thereafter all Selectmen to be elected for a term of three years; the Board of Selectmen to appoint its Chairman from year to year.

C. To see if the town will vote or take such other action as it may deem fit and proper to change the salary of the members of the Board of Selectmen so that the chairman will receive a salary of \$350 a year and that the associate members receive each a salary of \$250 a year, as petitioned for by Robert B.

Hegarty and others.

D. To see if the town will vote to authorize the Moderator to appoint a committee consisting of the Board of Selectmen and three citizens of the town to investigate into the feasibility and expense of the laying out of a way ten feet wide leading from Stetson avenue through land adjacent to land of the Swampscott Tennis Club, under the Boston & Maine Railroad and over land of said railroad to Essex street for the use of pedestrians, and said committee report to this or some special town meeting before the next annual town meeting

To see if the town will vote to require the Finance Committee in rendering its report prior to any regular or special town meeting, to submit a printed copy of its report to each Town Meeting Member, not less than fortyeight (48) hours prior to said meeting and direct the Town Counsel to proceed to have same included in Chapter IV of the Town By-Laws.

Article 9. To appropriate and raise by borrowing or otherwise, under any general or special law which authorizes the town to raise money by borrowing or otherwise, such sum or sums of money as may be necessary for any or all of the purposes mentioned in the foregoing articles.

And you are directed to serve this warrant by posting attested copies thereof at the Town Hall, Post Offices and in at least one public and conspicuous place in each precinct of the town and at or in the immediate vicinity of each railroad station in the town seven days before the day appointed for said meeting.

Hereof fail not, and make due return of this warrant, with your doings

thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this eighteenth day of April, A. D., 1935.

PHILIP E. BESSOM, LESTER B. MORLEY, R. WYER GREENE, Selectmen of Swampscott.

A true copy. Attest: FRANK H. BRADFORD, Constable.

Return on the Warrant

Pursuant to the within warrant to me directed, I have notified the legal voters of Swampscott, by posting attested copies of said warrant at the Town Hall, Post Offices at least one public and conspicuous place in each precinct in the town, and at or in the immediate vicinity of each railroad station in Swampscott on Tuesday, April 23, 1935, the posting of said notices being Swampscott on Tuesday, April 29 seven days before the time of said meeting.

Attack: FRANK H. BRADFORD,

Constable.

Special Town Meeting, Wednesday, May 1, 1935

In accordance with the warrant the town meeting members assembled at the Town Hall, and were called to order by John R. Hurlburt, Moderator, the necessary quorum being present (97).

The warrant with the return thereon was read by the Town Clerk.

The finance report was read by John H. Blodgett, chairman. Voted, article 1. To accept the report of the Finance Committee and adopt their recommendations as follows:

That the Selectmen be instructed to call a town meeting on the second Monday in January to fix the salaries for elective officers for the ensuing year. Voted, article 2. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the Selectmen be instructed to call a town meeting on the second Monday in January to fix the salaries for elective officers for the ensuing year. Voted, article 3. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the Selectmen be instructed to call a town meeting on the second Monday in January to fix the salaries for elective officers for the ensuing year.

Voted, article 4. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action under this article be indefinitely postponed.

Voted, article 5. To accept the report of the Finance Committee and adopt their recommendations as follows:

That the Finance Committee be allowed to continue consideration of this question, to report on the same prior to the next annual town meeting.

Voted, article 6. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the Crosman avenue, Linden avenue, Stanley road and Allen road sewers be continued as an ERA project, the work to be carried on as heretofore under the direction of the Water and Sewerage Board, and that \$619.75 be transferred from the Emergency Sewer Account A and that \$1,000. be transferred from Emergency Sewer Account B to the Crosman ave., Linden ave., Stanley road, and Allen road, sewer construction account and that the Finance Committee be authorized to transfer any other available funds that may become available during the ensuing year to the amount that may be necessary to complete the project, the entire amount of such transfers not to exceed the sum of \$3100.

Voted, article 7. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the Board of Selectmen be authorized to tear down the Palmer school building on Humphrey street, and to sell the land now owned by the town.

Voted, article 8A. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 8B. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action under this article be indefinitely postponed.

Voted, article 8C. That action under this article be indefinitely postponed.

Voted, article 8D. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That a committee be appointed by the Moderator to consist of the Board of Selectmen and three citizens of the town to investigate the feasibility and expense of laying out a way ten feet wide, leading from Stetson avenue to Essex street, for the use of pedestrians, and that said committee report at the next town meeting.

Voted, article 8E. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 9. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action under this article be indefinitely postponed.

Voted to dissolve.

Dissolved at 8:30 P. M.

Attest:

RALPH D. MERRITT, Town Clerk.

Railroad Underpass Committee, May 18, 1935 John R. Hurlburt, Moderator, appointed the following to serve with the Selectmen to investigate the underpass under the railroad, as authorized at the last town meeting.

said meeting.

Hereof fail not, and make due return of this warrant, with your doings

thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this thirty-first day of May, A. D., 1935.

PHILIP E. BESSOM,
LESTER B. MORLEY, R. WYER GREENE, Selectmen of Swampscott.

A true copy. Attest: FRANK H. BRADFORD, Constable.

Return on the Warrant

Pursuant to the within warrant to me directed, I have notified the legal voters of Swampscott, by posting attested copies of said warrant at the Town Hall, Post Offices, at least one public and conspicuous place in each precinct in the town, and at or in the immediate vicinity of each railroad station in Swampscott, on Monday, June 3, 1935, the posting of said notices being seven days before the time of said meeting.

Attest:

FRANK H. BRADFORD, Constable.

Special Town Meeting, Tuesday, June 11, 1935

In accordance with the warrant the town meeting members assembled at the Town Hall, and were called to order by John R. Hurlburt, Moderator at 7:45 P. M. the necessary quorum being present (110). The warrant with the return thereon was read by the Town Clerk.

REPORT OF HIGH SCHOOL COMMITTEE

The Authorization of the Committee

At a special town meeting held Monday, March 25, 1935, it was voted: 'That the sum of six thousand dollars be appropriated to be raised by taxation and to be applied toward the erection and equipping of a high school. That a committee of five be appointed by the Moderator, and said committee be and hereby is authorized to appoint and engage an architect and prepare plans, estimates and specifications for the erection and equipping of such high school on Phillips Park, and also on the present site, and to pay for such plans and other expense incurred under this vote out of this appropriation. In case during the current year the town votes to issue bonds for this purpose under any act that may require the appropriation of 25 cents per one thousand dollars of the assessed valuation out of taxation, the amount of \$6,000 appropriated by this vote is intended as such appropriation out of taxation.

Said committee is also authorized to make application for a grant of Federal aid for such purpose, file with all Federal and State authorities plans, and other information incidental thereto; and to accept such grant provided that the committee determines that the amount and conditions of the grant

are such that acceptance is desirable.

Said committee shall proceed at once, report back to the town as soon as can be done at a special town meeting to be then called. Said committee shall also obtain information and make report on the cost of enlarging, remodeling or adding to the present school.

Said committee is also authorized to petition the legislature to extend or modify or both Chapter 262 of the Acts of 1930."

In accordance with the above vote the Moderator appointed the following

committee:

PHILIP W. BLOOD, Chairman PHILIPE. BESSOM FRED E. RUSSELL LOUIS I. SCHREINER GEORGE C. THOMAS

The Report of the Committee

The Committee's function under the vote of the town is as follows:

To obtain and present information on which the town may act relative to erecting a new high school on Phillips Park.

To obtain and present similar information relative to erecting a new high school on the site of the present high school.

To obtain and present information relative to adding to, enlarging and remodelling the present high school. To apply for a grant of Federal aid.

To petition the legislature for an extension of Chapter 262 of the Acts of 1930 whereby the town was authorized to borrow money outside the debt limit for building a new high school.

The cost of erecting a high school necessarily depends upon the size and type of building. A consideration of present needs, past growth, probable future development, and conferences with the school authorities, convince us that a building with a normal capacity of 600 pupils, will be adequate for the present and for many years to come:

This was taken by us as a standard requirement to be met in providing the

town with a suitable high school.

PHILLIPS PARK

In 1929 and 1930 a committee appointed by the town made a thorough study of the matter of erecting a new high school on Phillips Park. They engaged an engineer to make soundings as to a foundation. They engaged an architect to make plans for the school. They reported an adequate foundation, and that the site was suitable. Their report and the architects plans are published in detail in the Town Reports of 1929 and 1930.

We have not felt it necessary to duplicate the entire work and expense of that committee. We accept as correct the former committee's report that Phillips Park affords a foundation. The architects employed by the former committee, Cram & Ferguson, have furnished us with revised plans, based on the requirements we have adopted as standard set forth above, and revised

cost estimates based on present prices.

Based on these estimates, we believe and report that a new high school, such as outlined, can be erected and equipped on Phillips Park at the estimated

cost of \$450,000.

The proposed school would accommodate 600 to 625 students. The three main elements included are (1) the school rooms and administration; (2) the auditorium; (3) the gymnasium. The auditorium and gymnasium will have very frequent evening or holiday use for non-school purposes; these elements have therefore been placed on the front of the building where they are easily accessible to the public, and can be cut off from the school proper. Thus the auditorium and gymnasium are not only conveniently located, but the large windows which they require, make a very effective feature in the design of the front. The school rooms are disposed about them on three floors.

Main Floor

The main entrance is in the center of the building on the left of the central lobby is the auditorium with coat rooms, stage and seats for 697 persons, 540 on the floor, 157 in a gallery. On the right of the center is the gymnasium, which can be divided into two parts by a folding partition, or used as a unit, when it has floor space for a standard basket ball court, and folding bleachers for 140 spectators. The lockers and showers are on the floor below. Opposite

the end of the entrance lobby is the administrative unit, consisting of offices for the principal, and rooms for men and women teachers and the school nurse. On one side of the office unit are the five rooms for business training; on the other two laboratories and three class rooms. There are toilet rooms for boys and girls on each floor, and built-in lockers in the corridor partitions.

Second Floor

On this floor is the auditorium gallery, and a double gymnasium gallery. In the center is a school library, with librarian's room. On the left is a double study hall, divisible into two rooms by a folding partition, a single study hall, and a room for free-hand drawing; on the right are biology laboratory, and three class rooms.

Ground Floor

On the front portion of this floor are showers and lockers, boiler room and cafeteria. The girls' showers are in separate compartments; gang showers are provided for the boys. In addition there are gymnasium instructors' offices, and rooms for corrective physical training. The cafeteria has a kitchen, and seating space for 375 students at one shift. On this floor there are six class rooms, and rooms for cooking, sewing, manual training and mechanical drawing.

Summary of Rooms

During	
Administrative unit (principal, teachers, nurse)	
Academic class rooms and study halls	15
Science	3
Business training	5
Drawing	2
Domestic arts	2
Shops	1
Library	1 (48 students)
Auditorium, with stage and gallery	(700 students)
Cafeteria and food preparation	(375 students)
Gymnasium—double, boys and girls	` '
Showers and lockers for boys and girls	
Rest rooms for boys and girls	

Material

The building is designed to be built of sand struck brick, with limestone trim. Floors in class rooms and in general throughout the building are to be asphalt tile. Corridor floors are to be of asphalt tile except in the main entrance lobby, where there will be terrazzo laid in patterns. The gymnasium floor is to be of maple, laid in mastic.

Stairs are to be metal construction with metal risers and treads of pressed

steel with a cast masonry wearing surface.

Standard built-in locker equipment is to be included and built into corridor partitions. Exposed section of corridor where there are no lockers, to be faced with glazed terra cotta tile.

A certain amount of acoustical material will be required similar to Celotex for the ceilings of typewriting rooms, etc., and acoustical plaster in corridors

and parts of the auditorium.

Heating system will be low pressure steam with unit heaters for class rooms and the usual ventilating equipment. Boilers are to be cast iron, sectional type.

There will be a flat composition roof.

In considering Phillips Park we have contemplated locating the building about 100 feet back from Humphrey street equidistant from the new football field and the easterly boundary of the park.

II. NEW SCHOOL ON THE PRESENT SITE

To build an entirely new school on the present site would seem to be impractical. It would necessitate first tearing down the present building. There is no adequate place in town to carry on classes. The school work would be disrupted and pupils would lose in effect nearly a year's time. However, if the town desires to build a new school on the present site we are of the opinion that the cost would be approximately the same as at Phillips Park.

III. THE PRESENT BUILDING

The Committee conferred with J. Williams Beal, Sons, the architects for the new Melrose High School, as to the present structure. Based on their study conferences with the school authorities, and our own observations, we believe and report that a school suitable for present needs and adequate to care for future growth can be provided by adding to and making some changes in the present building. The lot of the present high school contains 75,000 feet. It is so laid out as to permit additions on the rear.

To cover the requirements we have set up as a standard it would be nec-

essary to make the following additions and changes:

It is proposed to build on to the rear of the existing building in accordance with the accompanying plans an addition which will contain class rooms or special rooms, cafeteria, auditorium and gymnasium with lockers and showers. The class rooms in the existing building on the north and south side will remain as at present, the connections to the addition to be made through the existing class rooms on the east side or rear. New students toilets and locker space to be provided on each floor in this location. The existing auditorium on the third floor will be divided into three laboratories, and the present gymnasium will be used as a shop.

The plan contains the following rooms which are designed to accommodate

adequately a senior High School of 600 pupils.

11 Standard class rooms	35 pu	pils each
Study	70	- ,,
Physics laboratory	24	"
Chemistry laboratory	30	"
Biology laboratory	30	"
Typewriting room	30	"
Bookkeeping room	35	"
Machine room	15	"
Mechanical drawing	35	"
Freehand drawing	35	77
Cooking room	20	"
Sewing room	30	"
Large shop	30	"
Small shop	15	"
Library	60	23
4 11 2		

Auditorium—seating capacity 650. Gymnasium—double, boys and girls.

Locker and shower baths.

Cafeteria—seating capacity 325.

Administrative officers.

Teachers rooms.

Nurses rooms.

Toilets-boys and girls.

Book rooms and storage space.

Condition of Existing Building

The existing building is well built and in excellent condition structurally. The plan of addition contemplates, practically speaking, no major changes in supporting structural walls or roof. The only cutting of walls necessary will be where the window area in present class rooms will be increased. The present tower will be removed as well as the large ventilating chimneys which have been the source of considerable maintenance expense. The boiler plant is in good condition and will be utilized; ample space is available for an additional boiler.

The building both from the standpoint of plan and structure is well adapted

to addition and alteration at a reasonable cost.

Description of Plans

The accompanying plans shows the existing walls and partitions in black and all new partitions and walls cross hatched. It will be seen that most of the existing partitions remain as at present. The space occupied by two class rooms on the rear of the first and second floors are used for connecting corridors to the addition and locker space and toilets. The existing windows will remain, opening into a large light court.

The corridors of the new addition and present building on all floors except the third form a rectangle around which are located the class rooms and special rooms. The large court with windows opening into the corridors and locker space is ideal and the general plan is most convenient and permits the students to pass from classes with the minimum interference and confusion.

Two new stairways are provided in the addition making a total of four which provide the proper exits for the building and make the circulation from floor to floor easy and convenient. All stairways are fireproof, and each class

room has two separate means of exit.

The auditorium at present takes up the whole third floor. It is planned to divide this as indicated for the physics, biology, and chemistry laboratories, and is the most desirable location for these rooms. No supporting partitions are changed. The existing windows are enlarged to give proper natural illumination.

The new auditorium opens directly off the corridors on the north side, thereby leaving so far as possible the best orientation for class rooms. The main floor which seats 480 is on the first floor level and the balcony which seats 150 is on the second floor level. The main floor is pitched to the stage and will together with the balcony be provided with fixed seats. The stage is of ample size and planned for convenient use. Natural illumination will be provided by skylight.

The gymnasium is on the first floor level and has a clear floor space 60x80 feet which may be divided by a folding partition, making gymnasiums 40x60 feet for boys and girls. The balcony seats 180 and is entered from the second

floor.

Shower baths and locker rooms are located directly under the gymnasium and both the boys and girls have separate stairways leading from the same to

their respective gymnasiums.

It should be noted that the gymnasium has windows on three sides assuring ample light and sunshine and is located so that the noise will not be objectionable to the class rooms or auditorium. The plan permits using the gymnasium, showers and lockers as a separate unit without opening the whole school building to the public.

In the basement the present gymnasium will be utilized without changes as a general shop and is suited perfectly for this purpose. The space now occupied by bleachers will be used for store room and the existing toilet room

space used for a General Shop.

The grade of the ground is such that all basement windows will be full size in the new addition.

Construction

The new addition will have masonry exterior and interior supporting walls, fireproof stairways, and mill construction first floors, hard pine rafter joist construction for the second floor and roof. Walls of corridors, gymnasium, showers, lockers and toilets will show brick finish. All other walls and ceilings will be wire lathed and plastered.

All interior finish will be hard wood, finished natural, with maple floors in class-rooms, mastic tile or linoleum in corridors, and special rooms, and

terrazzo or tile floors in toilets.

The electrical system including illumination, clock system, fire alarms and telephone will be entirely new throughout.

The plumbing will be entirely new throughout.

The present heating boilers will be retained and an additional boiler installed, utilizing as much as possible of the present heating mains and piping. Apart from the boiler unit, however, a practically complete new system of heating and ventilating with unit ventilators will be installed with full automatic control.

Exterior of Building

The present slate roof will remain. The tower and large ventilating chimneys will be removed and a new central cupola of simple design will be built on the main roof as indicated on the exterior elevations.

As is indicated new stone trim will be placed around the entrances to the building and all exposed surfaces of the existing building will be covered with a veneer of new brick to correspond with the addition so that the building will not have a patched appearance due to the necessary cutting of the walls where window sizes are increased. This new brickwork will give a much brighter and modern appearance to the present building and will of course make the whole completed structure appear like one unit. It is planned to make the new addition very simple in design. On the south side the present roof will be extended over the new addition thus, as the rest of the addition is well back from the street, there will be no view of the completed structure which will be unattractive.

Cost of Building

Our architects have made detailed estimates of the cost of the building which include all construction work, heating, ventilating, plumbing, electrical. necessary built-in school equipment, movable furniture and equipment, architect's services and services of clerk of work, and have had their figures checked by several contractors. These figures show that to carry out the work necessitates an appropriation of \$325,000.00.

The architects also report that this work could be carried on without

seriously interfering with school sessions.

IV. FEDERAL AID

The allotments and regulations for carrying out the public works aid program of the government were released in a letter dated May 25, 1935, signed by Mr. Parker of the State P. W. A. office. The amounts and terms of grants to communities for public works are to be on a 45% grant and 55% loan basis. About 90% of the cost of a school would be eligible to receive the grant of 45%.

We believe the town should now adopt definitely one of the propositions above set forth, vote an appropriation by bond issue conditional upon obtaining a satisfactory grant of Federal funds and empower whatever committee may have charge of the matter to negotiate for and approve or reject such

grant.

V. EXTENDING LEGISLATIVE ACT

The committee petitioned and obtained from the legislature authority for the town to borrow outside the limit of indebtedness not exceeding \$400,000 for building a new high school, enlarging, adding to, remodeling the present high school, on fifteen year bonds.

CONCLUSION

We do not consider it part of our job to compare the plans on which we are directed to report, or to set forth their relative advantages and disadvantages. The arguments on both plans are well known to the town. Neither is it necessary to discuss the need for better and greater high school accommodation. It may be taken for granted that most people interested in the subject are convinced of this. We report merely that an adequate high school, suitable to the present and probable future needs of the town, and satisfactory to the school department, may be provided either by building a new school on Phillips Park at an approximate cost of \$450,000, or by adding to and making changes in the present school at an approximate cost of \$325,000.

The probable effect on the tax rate of carrying out either plan, estimated without considering a credit of federal aid, would be, on a basis of 15 year bonds and using a figure of \$23,400,000 as the valuation of the town.

New school—first year, \$1.86 per M; average over 15 years \$1.57 per M. Present school remodeled—first year, \$1.34 per M; average over 15 years, \$1.13 per M.

The probable effect on the tax rate estimated as above but using a 45%

grant on the 90% of the cost eligible would be:

New school —first year, \$1.10 per M; average over 15 years \$.93 per M. Present school remodeled, first year, \$.80 per M; average over 15 years, \$.67 per M.

Of the \$6000 appropriated for use of the committee, we have expended as

follows:

For printing this report Approximately \$200. (Cuts, printing and necessary secretarial work)

The advice, estimates and plans of the architects (which are preliminary and not detailed working plans) were furnished without cost, probably upon the assumption that whichever plan is adopted the architect in question will be

employed.

We have caused to be placed in a warrant for a special town meeting such articles as we believe necessary in order that action may be taken on our report and bring about the building of a high school, and have requested the Selectmen to call a town meeting.

Respectfully submitted,
PHILIP W. BLOOD, Chairman
PHILIP E. BESSOM
FRED E. RUSSELL
LOUIS I. SCHREINER
GEORGE C. THOMAS

Voted, article 1. That the report of the High School Committee be accepted and the committee thanked for their excellent report.

The Finance Committee report was read by John H. Blodgett, Chairman Voted, article 3. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the town build an addition to and enlarge and remodel the present High School building, commonly known as the Phillips School, located on Greenwood avenue, Swampscott, and originally equip and furnish such addition and that there be raised and appropriated for this purpose the sum of \$325,000. And that the treasurer with the approval of the Selectmen be and hereby is authorized to borrow a sum not to exceed \$325,000. and to issue bonds or notes of the town therefor, said bonds or notes to be issued and payable in accordance with the provisions of Massachusetts General Laws. Chapter 44, and amendment thereof and additions thereto, Chapter 241 of the Acts of 1935, either or both, and or any other act or acts relating to borrowing for such purpose, the whole loan to be paid in not more than 20 years or at such earlier period as may be determined by the Treasurer with the approval of the Selectmen. All moneys received from the Federal government under any act authorizing the grant of money to towns for this purpose shall be applied to meet the cost of building and originally equipping and furnishing said addition and enlargement, or to payment of the loan herein authorized, or the money to be borrowed to be reduced by the amount of the grant received and applied to the cost of the project; or in any or all of said ways. There were 121 members voting, 117 for and 4 against, carried by more than two-thirds vote.

Voted, article 4. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 5. To accept the report of the Finance Committee and

adopt their recommendations as amended:

That the committee appointed under Article 6 of this warrant be authorized and empowered in the name and behalf of this town, to apply for, negotiate for, accept or reject a grant of Federal aid for the purposes of carrying out the vote of this meeting under Article 3, and be it resolved by the town meeting members of the town of Swampscott in session duly assembled:

Section 1. That the committee duly appointed by vote of the town of Swampscott, consisting of Philip W. Blood, Philip E. Bessom, Fred E. Russell, Louis I. Schreiner and George C. Thomas, commonly known as the High School Committee, be and they are hereby authorized to execute and file an application on behalf of the town of Swampscott to the United States of America for a grant to aid in financing the construction of the High School addition.

Section 2. That the committee duly appointed by vote of the town of Swampscott consisting of Philip W. Blood, Philip E. Bessom, Fred E. Russell, Louis I. Schreiner and George C. Thomas, commonly known as the High School Committee, be and they are hereby authorized and directed to furnish such information as the United States of America through the Federal Emergency Administration of Public Works may reasonably request in connection with the application which is herein authorized to be filled.

Voted, article 6. To accept the report of the Finance Committee and adopt their recommendations as amended, striking out the words "by the addition of two members, making the total seven" so as to read:

That the committee appointed by the Moderator under the vote of the special town meeting of March 25, 1935, to investigate and report on a High School, be continued in existence and that the Moderator have the authority at his discretion to fill any vacancy on the committee, and that said committee be authorized and empowered to engage an architect, enter into contracts and to undertake and perform any and all acts necessary or proper to lay out, build, equip and furnish, remodel, add to and enlarge a high school as provided by vote of this meeting under Article 3 of this warrant, within the appropriation therein specified.

Voted, article 7. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted to dissolve.

Dissolved at 8:10 P. M.

Attest:

RALPH D. MERRITT, Town Clerk.

Special Town Meeting, Tuesday, June 11, 1935

In accordance with the warrant the town meeting members assembled at the Town Hall, and were called to order by John R. Hurlburt, Moderator at 8:30 P. M. the necessary quorum being present (103).

The warrant with the return thereon was read by the Town Clerk.

Voted, article 1. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That \$5000 be transferred from the Reserve Fund to the account of Hawthorne brook, such sum to be used for the purchase of materials, trucks and machinery and other expense in connection with the enclosing Hawthorne brook, or a portion thereof, the work to be done as an ERA project under the supervision of the Water and Sewerage board.

Voted, article 2. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, article 3. To accept the report of the Finance Committee and adopt their recommendations as follows:

That action on this article be indefinitely postponed.

Voted, to dissolve.

Dissolved at 8:45 P. M.

Attest:

RALPH D. MERRITT, Town Clerk.

Special Town Meeting, Tuesday, December 10, 1935

Essex ss.
To either of the Constables of the town of Swampscott in said County,

In the name of the Commonwealth of Massachusetts you are hereby directed to notify the inhabitants of the town of Swampscott, qualified to vote in elections and in town affairs, to assemble in the Town Hall in said Swampscott on Tuesday, the tenth day of December, at 7:45 P. M., then and there to act on the following articles, viz:

Article 1. To hear and act on the report of the High School Building

Committee.

Article 2. To see if the town will vote to appropriate, for the purpose of adding to, enlarging, remodeling the present high school building, commonly known as the Phillips School, and originally equipping such addition, a sum in addition to the \$325,000 already appropriated for that purpose by the special town meeting of June 11, 1935, said sum to be expended under the direction of the High School Building Committee.

Article 3. To see if the town will vote to authorize the High School

Article 3. To see if the town will vote to authorize the High School Building Committee to apply for, accept or reject an additional Federal grant for the purpose of adding to, enlarging and remodeling the present high school.

Article 4. To appropriate and raise by borrowing or otherwise, under any state or Federal laws, general or special as are applicable, such sum or sums as may be necessary for any or all of the purposes mentioned in the foregoing articles.

Article 5. To see if the town will vote to transfer the sum of five thousand dollars (\$5,000) from the Cemetery Lots Fund to the Cemetery Improvement account for the purpose of providing the material, equipment and other costs as required of the town under W. P. A. projects now being carried on.

And you are directed to serve this warrant by posting attested copies thereof at the Town Hall, Post Offices and in at least one public and conspicuous place in each precinct of the town and at or in the immediate vicinity of each railroad station in the town seven days before the day appointed for said meeting.

Hereof fail not, and make due return of this warrant, with your doings

thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this twenty-seventh day of November, A. D., 1935. PHILIP E. BESSOM

LESTER B. MORLEY. R. WYER GREENE,

Selectmen of Swampscott.

A true copy. Attest:

FRANK H. BRADFORD, Constable.

RETURN ON THE WARRANT

Pursuant to the within warrant to me directed I have notified the legal voters of Swampscott, by posting attested copies of said warrant at the Town Hall, Post Offices at least one public and conspicuous place in each precinct in the town, on Monday, December 2, 1935, the posting of said notices being seven days before the time of said meeting.

FRANK H. BRADFORD,

Constable.

Special Town Meeting, Tuesday, December 10, 1935

In accordance with the warrant the town meeting members assembled at the Town Hall, and were called to order by John R. Hurlburt, Moderator, at 7:45 P. M. the necessary quorum being present (101). The warrant with the return thereon was read by the Town Clerk.

The report of the High School Building Committee was read by Phillip W.

Blood, Chairman.

HIGH SCHOOL BUILDING COMMITTEE REPORT

Report of the High School Building Committee to Special Town Meeting December 10, 1935:

At the meeting of June 11, 1935, the town appropriated \$325,000 to be raised by bond issue, to enlarge, remodel and equip the present high school.

The figure of \$325,000 was estimated by the architect, on preliminary plans ased on conditions and prices then prevailing, and after careful study

and conferences with contractors.

In accordance with the vote of the town meeting of June 11, 1935, the High School Building Committee engaged J. Williams Beal Sons as architects to make detailed working plans and drawings for the remodeling and enlargement of the present high school and took up with the Federal authorities the matter of obtaining a Federal grant.

The plans were completed, a grant of \$136,000 was obtained, and the com-

mittee advertised for bids on the project.

The bids were opened November 22, 1935. There were four bids running from \$338,000 to \$360,000, with minor variations if certain work was omitted or retained. Since the estimate of \$325,000 had been figured to include movable furniture and equipment, architects services, and services for a clerk of the works, and since the figures submitted by the bids covered only the construction of the building, it will be seen that the bids ran considerably over the estimate.

The reasons for this are:

A. At the time the estimates were made the building market had long been demoralized, contractors had been without any great amount of work for a considerable period, and were bidding on jobs at dangerously close margins. Many contractors had been forced

into settlements with creditors or into bankruptcy.

B. A large amount of PWA work is being let out at the present time and contractors feel, and justly so, that they are entitled to a fair profit on their work; and, rather than bid at a figure to jeopardize all profit, they will run the risk of losing a job in hope of securing work later in another locality.

C. The scope of the project was somewhat enlarged by adding two additional class rooms at the suggestion of the School Department. Several additional public toilets were added in order that the auditorium and gymnasium might be operated at the same time as separate units. In addition, grading of the lots was included, as the Committee felt it would greatly add to the appearance of the building if the grounds were put in suitable condition.

To carry out the project on the basis of the present bids will require a total appropriation of \$405,000, i-e-,approximately \$340,000 for the general contract of constructing the building, and \$65,000 for furnishings, architect fees and contingent items. This will necessitate an additional appropriation of \$80,000. Against the appropriation already made a Federal grant of \$136,000 has been awarded. Against the additional appropriation a Federal grant of \$36,000 is anticipated though not promised. On this basis the project if carried out would cost \$405,000 of which \$233,000 would be paid by the town and \$172,000 by the Federal Government. It is possible that the additional cost may be less than \$80,000, but this amount should be authorized if the project is to be carried through.

In reply to the question which has been raised as to whether the building could be built more cheaply by the town if WPA aid were rejected, the answer is, in the opinion of the Committee, most emphatically no. While the Committee has been unable to find another project under the present 45% grant set up which has actually been figured both with and without PWA aid, the contractors who have bid on the present job state that the difference cannot possibly run over 10%. As 10% on the contract amounts to \$34,000 and as the town has already received a grant of \$136,000 with a possible addition of \$36,000, making a total of \$172,000 in all, to reject Federal aid would be to give up \$136,000 at the least or \$172,000 at the most in order to save \$34,000.

The present set up as to Federal aid differs from that of a year ago. A year ago it was ordinarily 30% of the cost. The wage rates to be paid were set by the Federal authorities. Hence it was impossible in certain localities where wages in the building trades were low to build cheaper without than with Federal aid. In Maine for example some projects were built without Federal aid because skilled labor could be hired for \$4.00 or \$5.00 a day, whereas if Federal aid were used the regulations made the rate \$9.60 per day.

Under the present 45% grant set up the rates of pay are fixed by the State Labor Board and are essentially the same as the union rates in the locality. It would not be possible to erect a large school building under union conditions and pay an appreciably lower wage than that set by the State without connivance between contractor and employee. This condition, if brought to light, might result in strikes and costly delays not only in finishing the building but also in severely hampering the School Department.

The Committee feels that it will be for the best interest of the town if the additional appropriation of \$80,000 is authorized and permission given to the Committee to apply for an additional grant to reduce the additional cost.

Respectfully submitted,

PHILIP W. BLOOD, Chairman PHILIP E. BESSOM, FRED E. RUSSELL, LOUIS I. SCHREINER, GEORGE C. THOMAS.

Voted, article 1. To accept and adopt the report of the High School Building Committee. (Unanimous.)

Voted, article 2. To accept the report of the Finance Committee and adopt their recommendations as follows:

That for the purpose of building an addition to, enlarging and remodeling the present high school building, commonly known as the Phillips School, located on Greenwood avenue, Swampscott, and originally equipping and furnishing such addition, as voted by the town under article 3 and article 6 of the special town meeting of June 11, 1935, there now be raised and appropriated, in addition to the sum of \$325,000 appropriated by vote of the town under article 3 of said special town meeting of June 11, 1935, the sum of \$80,000. by notes or bonds of the town; and to that end that the Treasurer with the approval of the Selectmen be and hereby is authorized to borrow for said purpose in addition to the sum of \$325,000 authorized by vote of the town under article 3 of the special town meeting of June 11, 1935, a sum not to exceed \$80,000, and to issue bonds or notes therefor, said bonds or notes to be issued and payable in accordance with the provisions of Massachusetts General Laws, Chapter 44, and amendments thereof and additions thereto, Chapter 241 of the Acts of 1935, either or both, and or any other act or acts relating to borrowing for such purpose; the whole loan to be paid in not more than 20 years or at such earlier period as may be determined by the Treasurer with the approval of the Selectmen.

All moneys received from the Federal government under any act authorizing the grant of money to towns for this purpose shall be applied to meet the cost of building and originally equipping and furnishing said addition and enlargment; or to the payment of the loan herein authorized; or the money to be borrowed to be reduced by the amount of the grant received and applied to the cost of the project; or in any or all of said ways. There were 107 members voting, 89 for and 18 no; carried by more than two-thirds vote.

Voted, article 3. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That by reason of the extra cost of the proposed high school addition and the additional appropriation vote by the town therefor by the foregoing article, the High School Building Committee be authorized to apply for, accept or reject an additional Federal grant for said purpose.

Voted, article 4. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That action under this article be indefinitely postponed.

Voted, article 5. To accept the report of the Finance Committee and

adopt their recommendations as follows:

That the sum of \$5,000. be transferred from the Cemetery Lots Fund to the Cemetery improvement account for the purpose of providing material, equipment and other cost as required of the town under WPA projects now being carried on.

Voted, to dissolve. Dissolved at 9:10 P. M.

Attest:

RALPH D. MERRITT, Town Clerk.

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporation and Taxation

DIVISION OF ACCOUNTS

STATE HOUSE, BOSTON

June 4, 1935.

To the Board of Selectmen, Mr. Philip E. Bessom, Chairman, Swampscott,

Massachusetts.

Gentlemen: I submit herewith my report of an audit of the books and accounts of the town of Swampscott for the period from July 1 to December 31, 1934, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours, THEODORE N. WADDELL, Director of Accounts.

Mr. Theodore N. Waddell, Director of Accounts, Department of Corporations and Taxation, State House, Boston.

Sir:—In accordance with your instructions, I have made an audit of the books and accounts of the town of Swampscott for the period from July 1

to December 31, 1934, and report as follows thereon: The financial transactions, as entered on the records of the several departments receiving or disbursing town funds or committing bills for collection, were examined, checked, and compared with the town accountant's records.

The books and accounts of the town accountant were examined and checked in detail. The receipts, as recorded, were checked with the treasurer's books and with the records of the several departments in which money was collected or bills were sent out for collection. The recorded payments were compared with the treasurer's cash book and with the treasury warrants.

The appropriations and transfers as entered on the accountant's ledger

were checked with the town clerk's records of financial votes.

The ledger accounts were checked and analyzed, the necessary adjusting entries were made, a trial balance was taken off, and a balance sheet, which is appended to this report, was prepared showing the financial condition of the town as of December 31, 1934.

The books and accounts of the town treasurer were examined and checked in detail. The recorded receipts were compared with the records in the several departments collecting money for the town and with other sources from which money is paid into the town treasury. The recorded payments were checked with the selectmen's warrants authorizing the disbursement of town funds and with the accountant's books. The cash book was footed and the cash balance on March 19, 1935, was proved by verifying the cash in the office and by reconciling the bank accounts with statements furnished by the banks of deposit.

The payments on account of maturing debt and interest were proved with the amounts falling due and checked with the cancelled securities on file.

The savings bank books representing the investment of the several trust funds in the custody of the town treasurer were personally examined. The income and disbursements were verified, and the transactions and balances were compared with the accountant's ledger.

The tax title deeds on hand, representing the tax titles taken by the town,

were examined and listed, and checked with the tax commitments.

The books and accounts of the town collector were examined and checked in detail. The tax, assessment, departmental, and water accounts outstanding at the time of the previous examination were audited, and all subsequent commitments were proved. The recorded payments to the treasurer were compared with the treasurer's cash book, the abatements were checked with the records of the departments authorized to grant such abatements, and the outstanding accounts were listed and proved to the accountant's ledger.

The outstanding accounts were verified by mailing notices to many persons whose names appeared on the books as owing money to the town, the replies

received thereto indicating that the accounts, as listed, are correct.

The town clerk's record of dog licenses issued on behalf of the county and for sporting licenses, the proceeds of which are paid to the State, were checked, and the payments to the town and to the Division of Fisheries and Game were verified.

The records of other licenses and permits granted were examined and checked, the payments to the treasurer were compared with the treasurer's receipts, the outstanding accounts were listed, and the cash on hand was verified.

In addition to the departments mentioned, the available records of all other departments receiving money for the town were checked and the pay-

ments to the treasurer were verified.

Appended to this report, in addition to the balance sheet, are tables showing a reconciliation of the treasurer's and the collector's cash, summaries of the tax, assessment, tax title, departmental, and water accounts, as well as tables showing the trust fund transactions.

For the co-operation extended and the assistance rendered by the several town officials during the audit, I wish, on behalf of my assistants and for my-

self, to express appreciation.

Respectfully submitted,

HERMAN B. DINE,
Assistant Director of Accounts.

THE COMMONWEALTH OF MASSACHUSETTS

Department of Corporation and Taxation

DIVISION OF ACCOUNTS

STATE HOUSE, BOSTON

December 5, 1935

To the Board of Selectmen, MR. PHILIP E. BESSOM, Chairman, Swampscott, Massachusetts

Gentlemen: I submit herewith my report of an audit of the books and accounts of the town of Swampscott for the period from January 1 to June 30, 1935, made in accordance with the provisions of Chapter 44, General Laws. This is in the form of a report made to me by Mr. Herman B. Dine, Assistant Director of Accounts.

Very truly yours,

THEODORE N. WADDELL. Director of Accounts.

MR. THEODORE N. WADDELL, Director of Accounts, Department of Corporations and Taxation, State House, Boston:

Sir: In accordance with your instructions, I have made an audit of the books and accounts of the town of Swampscott for the period from January 1 to June 30, 1935, and submit the following report thereon:

The financial transactions, as recorded on the books of the several departments receiving or disbursing money for the town, were examined and checked

for the period of the audit.

The town accountant's books were examined and checked. The receipts as recorded were compared with the treasurer's cash book and with the departmental records of payments to the treasurer. The payments as recorded were checked with the treasurer's record of disbursments and with the selectmen's

warrants authorizing the expenditure of town funds.

The ledger was analyzed, a trial balance was drawn off, the necessary adjusting entries resulting from the audit were made, and a balance sheet showing the financial condition of the town on June 30, 1935, was prepared and

is appended to this report.

The appropriations as recorded on the town clerk's record book were listed

and checked to the accountant's ledger.

The books and accounts in the town treasurer's office were examined and checked. The receipts as recorded were checked with the town collector's records of payments to the treasurer, with the accountant's books, and with the other sources from which the town received money, while the disbursements were compared with the selectmen's warrants and with the accountant's books.

The cash balance as shown on the cash book on September 17, 1935, was verified by actual count of the cash in the office, and by a reconciliation of statements furnished by the banks in which town funds are deposited.

The treasurer's record of tax titles held by the town was examined,

checked, listed, and proved to the accountant's records.

The town collector's books and accounts were examined and checked in detail. The commitment of taxes, assessments, and departmental accounts were verified by a comparison with the warrants issued by the board of assessors and the several departments. The recorded collections were checked with the commitment books and with the accountant's ledger, the abatements were compared with the assessors' and departmental records of abatements granted, and the outstanding accounts were listed and reconciled with the accountant's ledger.

The outstanding accounts were verified by mailing notices to a number of persons whose names appeared on the books as owing money to the town, the replies received thereto indicating that the accounts, as listed, are correct.

Appended to this report are summaries of the tax, water, and depart-

mental accounts receivable.

It was again necessary to check in detail the postings of taxes and water accounts receivable in order to locate and adjust the errors in the clerical work of the office. This procedure added materially to the work of the audit, thereby increasing its cost. It is recommended that greater care be exercised in the matter of entering cash collections and of posting to the various commitment books.

The town clerk's record of dog licenses issued on behalf of the county, and of sporting licenses, the receipts of which are paid to the State, were examined and compared with the amounts due and paid to the town treasurer and to

the Division of Fisheries and Game.

The records of receipts of the sealer of weights and measures were examined

and checked, the payments to the treasurer being verified.

The selectmen's record of licenses granted was checked with the record of cash received from this source, the payments to the treasurer being verified.

In addition to the departments and accounts mentioned, the records of all other departments collecting money for the town were examined and checked.

Appended to this report are tables showing summaries of the several

departmental accounts.

During the progress of the audit co-operation was received from all officials for which, on behalf of my assistants and for myself, I wish to express appreciation!

Respectfully submitted,

HERMAN B. DINE, Assistant Director of Accounts

The Board of Health

To the citizens of Swampscott:

The Board of Health herewith submits its report for the year ending

December 31, 1935, together with those of its various officers:

The past year has been quite satisfactory from a public health standpoint. The number of communicable diseases reported is considerably less than last year. German measles has been the predominating disease this year.

Four cases of arterior poliomyelitis (Infantile Paralysis) were reported

with paralysis resulting in but one case.

Three cases of typhoid lever were reported, during the month of August, among the members of two families who were spending their summer here together. Upon investigation it was found that the three became ill at about the same time. It also developed that four of the six persons who made up the party had partaken of a meal consisting of a meat loaf that had been prepared in a meat market of a relative of one of the families and sent here uncooked. The meat was not properly cooked and nearly raw when eaten. Three of the four were taken ill almost immediately after eating the meat. The two who did not partake of the meal were not ill at any time while here, which was rather conclusive evidence as to the source of infection.

Four new cases of tuberculosis have been reported and three deaths have

occurred during the year.

Two hundred ninety-six children were given the Von Pirquet test for tuberculosis under the personal supervision of Dr. Sartwell of the Essex Sanatorium. Forty-three children who showed a positive reaction to the test were found to be negative when X-rayed.

Six children who had been under the supervision of the Chadwick Clinic

were also X-raved with negative results.

Semi-annual examinations have been made of the teeth of children in the elementary grades and corrections made upon written request of the parents.

The usual pre-school clinics have been held and the parents advised as to the corrections which should be made before their children entered school. Free clinics for the inoculation of dogs against rabies were again held this year but the number who took advantage of the same was considerably

less than last year.

Special attention has been paid to the manner in which fruits, vegetables and other food products, cooked and uncooked have been displayed and exposed for sale and store keepers have been warned that prosecution would result if they persisted in displaying the same in open doorways, windows or upon the sidewalk unless they were covered with glass or in the original sealed containers.

Attention has also been paid to the manner and conditions under which articles of food and food products have been prepared and handled in the various eating establishments. In the majority of cases everything possible is being done to protect the health of those patronizing the establishments. There are a few proprietors, however, who fail to realize or understand the importance of conducting their business in a clean and sanitary manner. Warnings have been given in these cases and the proprietors notified that further violations will result in the closing of their places.

Soon after the construction of the football field at Phillips Park started we began to receive complaints that rats were infesting property adjoining the

Park. As the work progressed the complaints became more persistent.

During the latter part of July the situation became acute. Investigations revealed that doors, gardens and outside stairways were being destroyed, foundations undermined and in several instances dwellings so badly infested that the occupants were unable to sleep because of the noise made by rats running through the partitions and about the house.

As we had never received any complaints of rats from any of the owners or occupants of the infested premises previous to the work on the football field, we were not only satisfied as to the source of trouble but were convinced that something should be done to protect the health of those occupying the prop-

erties.

With funds provided by the Finance Committee and with the assistance of the W.P.A. we engaged the services of a reliable exterminating company to rid the homes and other buildings of the rats, covered the dump with gravel and erected a fence so that we could confine the dumping to a smaller area, all of which contributed to the abatement of existing conditions, temporarily at least.

We have also experienced considerable trouble with smoke from fires on the dump and everything possible has been done to eliminate them, as they are not only a source of annoyance to those living in the vicinity but are a source of expense to the town, as it costs from \$50 to \$75 each time the Fire Department

is called to extinguish them.

In a further effort to keep the combustible material off the dump, notices were distributed to each householder informing him that paper and other combustible material must be kept separate from the ashes, glass, tin cans and other noncombustible material or it would not be collected. As a result conditions have improved considerably. There is every reason to believe, however, that as the dump approaches adjoining property there is going to be a great deal of trouble unless provisions are made to keep the dump free from fires and properly covered.

We feel that the situation is one that should be dealt with by the Park Commissioners and accordingly recommend that they consider this matter

when preparing their budget for the ensuing year.

LORING GRIMES, M. D., HAROLD H. BARTOL, JOHN B. CAHOON, Board of Health.

Health Officer

To the Board of Health:

Gentlemen:—I herewith submit the following report for the year ending December 31, 1935:

The following is a summary of the work of the department during the year:

Pre-School Clinic	
Number of days of clinic	4
Number of children examined at the clinic	59
Number of children examined by the family physician	2
Number of children without defects	45
Number of children with defects	16
Number of defects found	20
Number of children with defects corrected	4
Number of defects corrected	7
Number of children inoculated with toxin antitoxin	19
Number of children vaccinated	61

MARY G. KELLY, R. N., Health Nurse.

Dental Clinic

To the Board of Health:

Gentlemen:—I herewith submit the following report of the activities or the

Dental Clinic for the year ending December 31, 1935:

Through a semi-annual examination and a follow-up system all children of the six elementary grades in each school were attended to or urged to visit their family dentist. Four hundred forty-four children were actually attended to by the clinic and all necessary dental work done for them.

Our standing among the cities and towns of the state is of the best.

A detailed summary of the work follows:

Extractions (temp. teeth)	235
Extractions (perm. teeth)	34
Local anaesthetic	223
Pulp cappings	6
Filling (temp. teeth)	759
Filling (perm. teeth)	603
Prophylaxis	416

Respectfully submitted,

C. WALTER BURRILL, Sealer of Weights and Measures.

Park Department

To the citizens of Swampscott:

Herewith is submitted the annual report of the Park Commissioners for

the year ending December 31, 1935:

After seventeen years of service on the board, Stuart P. Ellis withdrew his name for re-election to another term. Now that Mr. Ellis is no longer of the board, his associates may with propriety express the opinion that no other man in our town has served this length of time on the board. He has always been an exponent for the development of our park lands along simple and natural lines, so important to their true use as opposed to the "fussy and impertinent" features of ordinary parks.

On February 19, Ralph I. Lindsey presented his credentials of his

election as a member of our board.

Monument Avenue Parkway

This reservation has received such attention as it required. Due to the lack of adequate man power for park work, we have only been able to cut the grass at the necessary intervals. The shrubbery and lawns need some real attention if this reservation is to be maintained in the condition it has been in the past.

Jackson Park

Our baseball field at this park received more use than ever before and at the end of three years' service the diamond is just as perfect as at the time of completion. No added expense will be necessary during the coming year on the baseball infield.

An extension of the playing surfaces of the tennis courts at this park should take place this year. The space for back line play is too small and the wire now on the fence around these courts is worn out, necessitating replacement. It means lengthening the courts twenty feet.

ment. It means lengthening the courts twenty feet.

It is the hope of the board to develop a skating area back of the baseball field at not too distant a day, but for the next year, we feel we have other mat-

ters more important to attend to.

To protect the pine and hemlock trees planted within this park, fire lanes are now being constructed around the borders of the park. This is being done with the aid of government funds.

Our board has received a request from the Planning Board that we put play ground equipment on our three parks, therefore we recommend that a

start be made along this line for this park.

There is now a horizontal bar in place on this park. We recommend the addition of one swinging set, consisting of six swings and one single chute.

Abbott Park

To guard against accidents to children and to those who use this park for baseball, football, field hockey and skating, a steel fence four feet high has

been erected on the State road border of the grounds.

The excessive demand created by the activities of high and junior high school teams, together with the demand for the use of this playground by boys and girls of grammar school age necessitates, in the opinion of the board, the location of another playground in this district, in order to relieve the congestion at this park. For this reason we do not recommend that playground equipment be put on this park, not that it is not needed and that it is the most logical place in town for it, but because there is not room for such apparatus.

We are recommending in our 1936 appropriation, the expenditure of a sum for the erecting of an iron fence of suitable construction to be placed around Abbott boulder. The beautiful bronze work is continually being climbed over by the youngsters using this playground and they are breaking off

certain parts of this metal work. It should be protected.

With every favorable break in the weather during the winter, arrangements are made for day and night flooding of the surface so that the skating conditions may be the best possible for the youngsters of the town.

Blaney Beach Reservation

Since the complete renovation of the administration building last year, little expense for repairs has been necessary and the building is giving the best service to its tenants since its construction.

The automobile parking space was in use again and was enjoyed to fullest extent during the summer, special parking police being on duty to handle the

situation during the bathing hours.

Albert McClellan of Swampscott was again appointed life guard and rendered a very satisfactory and efficient service during the entire bathing season.

The life boat kept at this reservation was thoroughly repaired and repainted and was in commission throughout the entire season.

Phillips Park

Considerable improvement was made in the appearance of this park during the year. The unsightly dump on Humphrey street has practically dissapeared from view although it is the only dump operating in the town, at the present time. One incinerator was erected a year ago to take care of waste paper and burnable materials. At the time of building this incinerator this dump was only used three days in a week, but at the present time it is now open every day in the week except Sunday, there'ore there is a demand for another incinerator to be built to take care of the extra load which the dump now carries.

A football field has been constructed at this park and will be open for play next fall. By that time, in the opinion of the board, our field will not be sur-

passed by any other football field in this locality.

Over 6000 cubic yards of cinders were used as a foundation for this field. This gives perfect drainage to the entire surface of the field, the first real essential point that any athletic field should have. On top of this was placed 2000 cubic yards of loam. Many days was spent in raking, sifting and rolling this loam in order to get it into the finest possible shape for seeding. The next move was to cover this surface with one tor of turf building fertilizer. The result of this work was shown in the fine crop of grass which we were able to bring

up before cold weather set in.

Two years ago, in our original article for a football field, we asked for an appropriation which covered thirty foot bleachers on each side of the field. This plan was turned down in town meeting. A year ago we entered another article call ng for a field allowing eight foot bleacher space and this is the field which the town meeting voted to us last February and which has been built. It is the hope of the board that in the coming year a sufficient sum will be allotted to us for the construction of the larger bleachers, at least for one side of the field. We feel that this is very necessary due to the fact that the Marblehead game next Thanksgiving is at home.

The field has been enclosed under rights granted the Park Commission by

the State Legislature under Special Acts of 1916, Chapter 312.

There are no accommodations for visiting or home teams to use as dressing rooms before and after the game or as retiring rooms between the halves. Now that the high school is to be permanently located on Greenwood avenue another necessary piece of equipment is needed in the shape of a locker building,

as the nigh school is too far away to use for these purposes.

Since the construction of the football field to a grade of 16, our board is of the opinion that a like strip, of perhaps a smaller width should be attempted each year, so that by following a program of this kind over a period of three years, we will have the front of this park to the length of the present football field filled in all the way across. At this grade the park would be usable, at the old grade it is not usable.

Again, following the suggestion of the Planning Board, we also believe that a start should be made for playground equipment on this park, advocating three pieces of equipment, one swinging set, consisting of six swings, one single

chute and one single horizontal bar.

This is the only park in town which is not provided with a flag pole from which to fly the American flag. We have had much comment from people living near this park and our board hopes that an appropriation will be made for the erection of this flag pole.

During our last big storm the ten-foot wooden fence surrounding the tennis courts on this park was blown down. Our board recommends that a regulation chain link fence be erected this coming year, as it is a more permanent fence than the present wooden post hen-wire fence construction.

Our recommendations are heavy for this park, due to the fact that our other parks have been worked on, while this playground has never had real improvement made on it, so that it could be used at all times by the boys and girls of the town.

Respectfully submitted,

JOHN HOMAN, LEONARD F. BURDETT, RALPH I. LINDSEY, Park Commissioners.

The Board of Appeals

On June 7, 1935, the Board of Selectmen appointed Dr. Ralph C. Curtis a member of this board for a term of three years, replacing Harry M. Shanahan, whose term expired June 6, 1935.

The unexpended balance to the credit of this board at the present writing is \$51.75. The expenses of the board during the past year consisted solely of stationery, printing, postage and the clerk's salary, of which \$25 was paid from the unexpended balance to the board's credit in 1934. The clerk receives \$50 per annum for his services, which consist of attendance at all meetings, keeping the records of all proceedings, arranging for and accomplishing the mailing and publishing of notices of hearings.

During the current year the following matters came before the board: May 21, 1935, Lillian A. Little applied for a permit to build a sixty foot octagon pavilion on lot No. 24, State Road, (Sunbeam Inn). As no application or refusal by the Building Inspector to grant such a permit had been made, this matter was continued to May 28, 1935. In the meantime the petitioner withdrew her petition.

June 4, 1935, John J. McKenney applied for permission to enlarge his garage at 15 Sargent road to within seven feet from the sidewalk line. After hearing this petition was allowed.

July 26, 1935, James R. Mackie applied for permission to use the premises at 345 Essex street for a bakery. After hearing this petition was denied. Mr. Easterbrook voted in favor of allowing the petition.

CONRAD P. RICHARDSON, Chairman CHARLES V. EASTERBROOK, RALPH C. CURTIS,

LEONARD H. BATES, Clerk.

Board of Fire Engineers

To the Board of Selectmen:

Gentlemen: The following is the report of the Board of Fire Engineers and the Chief of the Fire Department for the year ending December 31, 1935:

Important Notice

We would ask all persons discovering fires in buildings to ring the nearest box (if within reasonable distance) as it is quicker and more accurate than the telephone. If you think you must use the telephone be sure to ask for Emergency, Breakers 82. Do not simply ask for the Fire Department.

Garage applications approved		27

Apparatus

Our apparatus is all in very good condition. Last July we placed in service at our Phillips Beach station a new 600 gallon triple combination Seagrave pumper, which has proved a valuable addition to our department.

Hose

We have in service 400 feet of 3-inch hose, 4000 feet $2\frac{1}{2}$ inch-hose, 750 feet of $1\frac{1}{2}$ -inch hose and 600 feet of $3\frac{1}{2}$ -inch hose all in good condition.

Fire Alarm System

There have been 101 alarms sounded by our fire alarm system during the

past year.

The special appropriation of \$3350 for fire alarm work made it possible for us to replace all of our old underground cables from box 36 Humphrey street, near the Ionic Club, to the Central Fire Station, also to lay new cables in Redington street, Paradise road and the Pine street connections. Two new boxes have been located, 511 Barnstable road, near Plymouth avenue, and 541 at Eastman and Fairview avenues. All of the circuits have been divided to guard against too many boxes being out of service at any one time in case of trouble. Unreliable bells have been replaced, and new batteries and rectifiers installed. This completes all necessary outside work.

We must now give our attention to the alarm apparatus located at the Central Station, which is very old and unreliable and located in an inflamable wooden building. We realize that to replace all this apparatus at once and place it in a small fire proof building would necessitate a larger expenditure of money than we think should be spent at one time. We therefore have decided to ask for an appropriation to replace about one half of this apparatus this year and build a fire proof building large enough to house the remainder when it is

secured.

Remarks

The fire loss this year is somewhat greater than usual, on account of the Legion building fire and the loss at the summer home of Harry E. Noyes, Galloupes Point.

At both of these places the fire was not discovered until the interiors of these buildings were wholly involved, making it impossible to prevent heavy

losses.

Drills nave been held regularly for the different companies in the depart-

We have furnished speakers on fire prevention for the different schools of the town in observance of Fire Prevention Week.

Chief of Fire Department JAMES WARNOCK

Board of Fire Engineers. HENRY A. SADLER, THOMAS P. MARTIN, ROY F. OLSON.

Report of Town Engineer

To the Board of Selectmen:

I herewith submit my twenty-third annual report of the service rendered by the Engineering Department for the various departments during the year

ending December 31, 1935.

The Engineering Department has had charge of the following lines of work; designing and superintending the construction of all sewers and drains; resurfacing of all streets built by contract, together with the specifications and estimates for the same; the establishing of street lines and the grade for curbing and granolithic sidewalks and all engineering questions which come before the boards of the several departments.

Sewer and Drains

The sewer system of the town has been extended in the following streets as an ERA project: Crossman avenue, Dale street, Sumner street, Stanley road and Linden avenue. The above streets have an assessed frontage of 5826 lin. feet the cost for materials etc. being \$5724.94, one half of which is assessed to the abutters.

Aspen road, Nason road and Ocean avenue sewers with an assessed frontage of 1022 lin. feet were constructed by contract at a cost of \$2718.68, one half

of which is assessed to the abutters.

In section No. 3,223 lin. feet of particular sewers were constructed at a cost of \$244.95 and 828 lin. feet in section No. 4, ERA project, at a cost of \$173.88 for materials. The total cost of these particular sewers are assessed to the abutters.

A surface water drain was constructed by ERA labor from Forest avenue to Sherwood road a distance of 650 feet at a cost of \$1257.76; also a drain in Danvers road for a distance of 607 feet at a cost of \$499.49.

Cemetery

The ERA and WPA labor has in the last two years excavated and refilled for burial purposes about 69,700 sq. feet of lot area graded, 57,600 sq. feet of avenues and 7500 sq. feet of planting area. Also constructed a rubble wall four feet high and 600 feet long on the Essex street and Capon road boundaries.

Resurfacing Roadway

The west side of Monument avenue from Burrill street to Thomas road, a distance of 900 feet, has been resurfaced with a permanent pavement, constructed under the Massachusetts Department of Public Works specifications at a cost of \$3957.31.

Assessors' Department

The yearly routine work necessary to bring the plans and card index up to date has been completed for this department.

Selectmen's Department

Data and estimates have been furnished for this department and plans submitted for their approval.

At the request of property owners street lines and grades have been given for grading lawns and building walls, etc.

Respectfully submitted,

WALLACE W. PRATT. Town Engineer.

Respectfully submitted,

FRANK L. BURK, Building Inspector.

Report of the Board of Assessors

We respectfully submit our annual report for the year 1935:

The total valuation, as of January 1, 1935, amounted to \$23,376,299, a decrease of \$96,632 from the previous year (1934).

The value of real estate, January 1, 1935, was \$22,135,642, a decrease of

\$122,245 from the previous year (1934).

The value of personal property, January 1, 1935, was \$1,240,657, an increase of \$25,613.

The total warrants on motor vehicle taxes for the year 1935 amounted to

\$31,160.69, an increase of \$1809.62 over the previous year (1934).

The past year was the beginning of a new tax period, whereby all properties were valued as of January 1st and taxes due on July 1st and October 1st.

Elected town officials could easily be divided into two classes, first those who have the burden of levying and collecting of moneys due to be spent for the cost of government, and those who have the pleasure of spending the money

thus collected.

In the first classification fall the assessors and the tax collector. These officials coming in contact with the human side of this picture only, cannot be expected to be of an optimistic turn of mind under present conditions. We ask the town meeting members and the finance committee to study this year's report, acquaint themselves with the town finances and to avoid, if possible, any jump in the tax rate exceeding \$30 per \$1000, as we believe this would seriously handicap the future development of the town.

Valuations

The town reached its highest valuation, including real and personal property, in 1932, in which year the amount was \$23,819,561. With little or no new building and the usual loss in depreciation the valuation in 1935 dropped to

\$23,376,299, being a decrease in these years of \$443,262.

We do not predict any increase for the coming year; in fact we anticipate a substantial reduction. In 1935, due to liabilities and appropriations as well as to loss of income, the amount of money to be raised and charged direct to taxation on real and personal property was \$684,925.56, being larger than that raised in any previous year of the town for similar purposes, and being \$51,156.43 more than was raised in 1934 on the same class of property.

The amount levied in 1935 upon the land, houses and personal property

in town is divided as follows:

Land contributes
Buildings contribute
Personal contributes

\$199,408.50 449,165.81 36,351.25

Total

\$684,925.56

State and County Taxes

The basis for State and County taxes for three years as provided for under chapter 58, section 10 of the General Laws is as follows:

Polls

3304

Corporation Property Valuations \$268,571 27,268,571

Proportional part of each \$1000-\$3.69.

For the preceding three years the proportional part was \$3.52.

The amounts furnished the assessors for the State assessments, the State tax and the County tax by the Tax Commissioner and used in determining the tax rate in advance of any action by the legislature were understood to be either more or less than the actual amounts which would be levied.

This year the amounts levied were in excess of the amounts used in fixing the tax rate to the extent of \$4,813.61. We reported this fact to the finance committee and suggested this amount be transferred from the reserve fund, as it was money that should be properly charged up to the appropriation of 1935 and not carried forward and appropriated in 1936.

Revaluation

In 1932 we were able with the assistance of the board of Selectmen to set aside a small amount of morey from the welfare fund to give employment to a few men who measured and placed or cards previously prepared demensions of a large number of buildings in town.

The work stopped there, and although the data was used in part where questions arose as to valuations, the areas and contents were not altogether computed.

Through Mr. Sawyer, agent for the ERA, we suggested an assessors' project asking for an appropriation of \$4,130 to complete this work, and this project is still pending.

We recommend an appropriation from this year's tax levy of \$1000 to be used either in the supervision of this project or, in the event of the project itself being rejected, to be used for carrying out the purposes of the project under our supervision.

A sample of the cards on which this data is to be tabulated are printed at the end of our report and would seem to be self explanatory to all interested in a revaluation of the town.

In presenting our budget for 1935 we recommended a special appropriation of \$800 to carry out Chapter 3, Section 4 of the Town By Laws, which calls for the publication of the Valuation Book by the Assessors every fifth year.

This year we have asked for the same amount, and if the money is appropriated the Valuation Book for 1936 will be compiled and printed.

Since 1929, when the Motor Excise Tax became law, the work in the office of our board has steadily increased from year to year.

This condition is due to the various changes in the tax laws, the added detail required by the Tax Commissioner, the increasing amount of information demanded by the business public, together with the changed conditions, due to the finarcial upheaval.

To give the tax payer and general public the service it is entitled to, we recommend the chairman of the board be made a regular position and that \$500 be added to our appropriation to cover the same.

This amount has been included in our budget for 1936, making our total appropriation for the Assessors' Department \$5000.

REPORT OF SCHOOL COMMITTEE

In making its report for the year 1935 the School Committee is glad to find that probably the most difficult problem that the town has faced for the past ten years is nearly solved. The new high school is now under way. Whatever may be said as to location, cost and design, the important fact is that we are to have a school. More than that, from our knowledge of

Whatever may be said as to location, cost and design, the important fact is that we are to have a school. More than that, from our knowledge of the plans and specifications, we feel certain that the school will be up-to-date, as well arranged as can be expected where its basis is an old building, and large enough to accommodate the town's high school population for many years.

As has been the case for the past number of years, the School Committee has closed the year with a substantial balance in the treasury and has submitted a budget for the coming year calling for a smaller appropriation than last year. It may be of interest to the townspeople to study the following table covering school appropriations and expenditures for the past four years:

	8 11 1	1	¥ -
Year	Appropriation	Amount Expended	Balance
1932	\$203,175.00	\$197,261.26	\$5,913.74
1933	184,770.00	182,169.60	2,600.40

1025	188 026 00	<i>'</i>	

The School Committee feels these economies have been effected without any loss to the efficiency of the schools and on the contrary believes the schools are presently at the highest peak of accomplishment attained in many years.

As the exact completion date of the high school addition is at this early time as yet undetermined, the Committee in submitting its budget for the year 1936 has included the operation of only such plant as is now in use by the School Department.

It can safely be assumed, of course, that with completion of the addition there will be increased expenses for janitorial services, light, heat, water, etc. The Committee feels it is better to ask for merely the usual appropriation at this time, make every reasonable effort to have that appropriation go as far as possible and if the addition is completed before the end of the year and sufficient funds are not on hand to care for the increased items, then would be a proper time, rather than now, to request a supplementary appro-

priation.

The Committee directs the attention of the townspeople to the fact that there will be inserted in the Warrant an article calling for the replacement and modernizing of the toilet facilities at the Clarke School. It has been the custom of the Committee to submit a special article in the Warrant when a major or extraordinary repair is required in a school building as it is the feeling of the Committee that the expenditure of an amount for repairs over \$2,000.00 should have the specific approval of town meeting members. The toilet facilities at the Clarke School are part of the original installation, are totally unsuited for school purposes because of sanitary and other reasons, and we feel should be replaced with modern plumbing at the earliest possible time. In order to remedy this condition we recommend that the town meeting appropriate the sum of \$3,000.00 for the installation of modern toilets. Even if this item of extraordinary repairs were included in our budget, the amount asked for maintenance is substantially less than last year.

The balance of the school plant has been maintained in a good state of repair and the work contemplated to be done in the coming year involves work which might be classed as ordinary and due to normal wear and tear. The principal items proposed are detailed in the Superintendent's annual

report, also printed herewith.

The Committee during the past year passed a ruling which will permit local residents, otherwise qualified for teaching duties except in the element of actual experience, to qualify as candidates for teaching vacancies in our elementary and junior high schools. The Committee also passed appropriate rulings in connection with the new State Laws on flag salute and teachers'

oath.

The Committee during the past few years has made a thorough study of salary schedules for women as adopted in other communities of the approximate size of Swampscott. To eliminate the misunderstandings which have occurred in the past, to acquaint new teachers definitely with their possibilities for material advancement and to offer an inducement to teachers now in the system to improve their academic standing, with consequent benefit to the school children, the Committee early in the past year placed in effect a salary schedule. This schedule fixes the minimum salary to be paid to new teachers, is based on training and experience and provides for definite and stated annual increments until the maximum is reached. Thus the salaries of women teachers will be handled automatically.

The Committee during the past year appointed a new male instructor of physical education and in the interests of economy and efficiency consolidated the boys' physical education departments of the High and Junior High Schools, although of course separate classes are held in each school as in the past. Before appointing the new Physical Education Instructor and Coach the Committee reviewed the records and personally interviewed many candidates and feel that a wise selection was made. The Committee is satisfied with his accomplishments to date and feels he is laying a good ground-

work for a successful regime.

We have devoted every effort to keep the scholastic standing of our schools at a high grade. The figures given in the Superintendent's report, as well as the results of our graduates in college entrance examinations and in college standing, seem to indicate that the results have been good.

The Committee desires to extend its appreciation to the Superintendent, to the supervisory and teaching force and to the janitors and other employees

for their co-operation and loyal assistance during the past year.

Respectfully submitted,

THOMAS S. BUBIER, Chairman, LEO J. COUGHLIN, PHILIP A. GRAHAM, JOHN R. HURLBURT, PHILIP H. STAFFORD,

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Committee of the Town of Swampscott:

Gentlemen:

I submit herewith my annual report as Superintendent of Schools for the year now ending.

Outstanding events this year have centered about the High School. In the first place, we have a new building. In the next place, there have been interesting internal trends.

I have watched the course of events in the high school with interest for nearly five years. In the beginning it seemed to me that I had never known a school with less pride in itself—less interest as a group, either in its surroundings or in its accomplishments. This, I believe, had its inception not originally in the pupils but in the community, which on the basis of tradition, seemed to have little faith in the school. It did not seem to me that such an attitude was justified. The corps of teachers was strong, and being improved. The quality of pupils was high. The only test that the community chose to apply—successful entrance to the colleges—was being met.

Whatever the events may be that have led to a change in state of mind, it is interesting that a change has come almost hand in hand with steps to improve physical circumstances. Briefly, the building has been repaired to the point that it is at least presentable. Courses of study have been altered to accord with the fact that about seventy percent of the pupils are not intending to go to college but are not therefore, unentitled to at least the same amount of the opportunity provided for pupils who are. To this latter end the Manual Arts course has been greatly expanded and moved to better quarters at the Hadley School, with the result that enrollment in the course has doubled. The Commercial Course has been intensified and a new branch—that of office machine work—introduced, with equipment as good as and probably better than that of any school of our size in the state. In its first year this branch shows an enrollment of forty-five pupils.

At the present time we come nearer to possessing a school of normal attitude than I have known heretofore in Swampscott. The number of misfits—always sources of difficulty—has been materially reduced, not by elimination but by adjustment. The personal conduct of most pupils is business-like and responsive rather than unco-operative. The scholastic Honor Roll is at its peak as compared with the past. The number of subject failures last year was fifty percent less than for the preceding year. In other words, the student body as a whole seems to have responded like any other social body to efforts to better its environment and conditions. With the new building an actuality, this is at least a hopeful prospect for the future.

We sent pupils into the freshman class of the following colleges this fall: Bates, Boston University, Brown, Duke, Harvard, Jackson, Massachusetts Institute of Technology, Massachusetts State College, Mt. Holyoke, Norwich, Radcliffe, Simmons, Smith, Minnesota, and Wheaton.

Early last spring we granted permission to representatives of the University of Pittsburgh to make certain tests in grades eleven and twelve of the senior high school, for the purpose of validating the results of other tests they were making while surveying the Wellesley School System. As the examiners explain in their report: "Since the tests were newly adopted forms, it was necessary to secure evidence of the performance of other high school pupils on these measures. For this purpose the co-operation of the school authorities in Belmont, Norwood and Swampscott was asked and obtained."

The tests were not subject matter tests, but were measures of the more general skills and powers involved in analyzing and organizing material. The first—called "Study Performance"—is composed of eight excerpts from history, science, and similar fields, so chosen as to be of about the level of difficulty required in outside readings in freshman college courses. Each excerpt is followed with paired sets of notes. It was the student's task to choose the better of the two sets of notes in each pair. Thus, the test is both an index of comprehension and of judgment in note taking."

The second—"The English and American Vernacular Test"—is an adaptation of a test used in a first year college experiment at the University of Minnesota. For this measure the students were given a pleasing, expository essay of twelve paragraphs dealing with differences in British and American speech. The student's task was to indicate the author's organization and to answer specific questions bearing on the essay. The latter required the organization of the essay as one should organize it in studying to make it permanent."

The results are listed below. College Business All Except. All Pupils Group Group College Test and School Grade Score Score Score Score Study Performance 12 13.9 School A 26.6 18.1 15.7 School B 12 24.713.8 18.3 15.0 12 22.115.0 18.0 School C 16.3 12 25.5 17.2 20.516.2 Swampscott Study Performance School A 22.8 15.8 18.9 15.7 11 School B 23.3 13.7 17.4 14.1 11 School C 11 20.7 16.1 15.6 14.4 Swampscott 11 20.9 16.9 18.5 16.2 American and English Vernacular Test School A 12 21.5 9.8 15.9 11.0 12 School B 19.3 11.5 14.6 11.9 12.5 11.1 School C 12 18.0 11.1 Swampscott 12 21.5 13.0 18.4 12.2 American and English Vernacular Test School A 7.7 11 18.3 8.0 10.4 School B 11 17.8 10.6 13.510.6 12.0 School C 11 17.4 10.7 10.9 11 16.2 9.5 13.4 Swampscott

Out of the sixteen opportunities above, in competition with three other schools of excellent standing, our pupils registered the highest scores on nine occasions, and were either highest or next to highest on thirteen occasions. It is seldom that we are able to get unbiased evidence of excellence. It appears to me, however, that the evidence of these tables is convincing beyond dispute.

Our financial statement at the end of this report indicates that we are again closing the year with an unexpended balance. It should be noted in this connection that \$1400.00 of this balance was in a way "ear marked" for a definite expenditure. At the time the budget was approved and appropriations made for the year, our intention was to fit up the cubicle at the rear of the high school so as to gain a necessary additional room. The furthering of the new school project made such expenditures inadvisable, and we are glad to return the sum intact.

Our budget for 1936 will show no increase over 1935, except in the matter of one major repair project which will be submitted to the town meeting in a special article. This deals with the modernizing of the toilets at the Clarke School. These toilets are antiquated, and are in fact so small as to be inadequate for many pupils who have to use them. The undertaking has been postponed from year to year because of other projects that seemed more pressing at the time, but I would not recommend further postponement.

There are no other repairs of an extraordinary nature in sight for 1936. An attempt has been made to do a certain allotment of painting and redecorating each year in order to maintain the appearance and condition of buildings without unusual expenditure in any one year. I recommend that four rooms in the Junior High School and four in the Machon School be redecorated, and that the exterior of the Machon School be painted this year.

Major repairs during 1935 included: Exterior painting of Clarke and Stanley Schools; interior painting of classrooms at the Hadley School and corridors in the Junior High School; painting of walls at the Junior High School; redecorating the Machon School Auditorium; relaying of two floors in the Clarke School; top dressing of lawn of Stanley School.

In preparing the budget for 1936, the element of operation costs that a new building will entail can hardly be arrived at with any accuracy. We anticipate the necessity of a janitorial force—probably another man and a woman—in addition to our present corps. Fuel, electricity and water bilis are bound to be higher, but we have no information yet on which to base any reliable judgment as to amount. It seems to me that we should attempt to make no estimate on these items yet, since we are not certain even as to exactly when the building will be available for use. I suggest that we make plain to the town that we will go as far as possible on our present budget, but advise them we may have to ask for more when the time for taking over the operation of the new plant is at hand. This seems fairer to all concerned than to ask now for a sum that may prove later to be either excessive or inadequate as the case may be.

We have taken full advantage of the funds available from Federal sources to assist worthy high school pupils financially. A quota of \$60.00 a month is allowed us to be granted in allotments of not over \$6.00 per month per pupil, such pupils to perform work of certain specified nature to be supervised by the principal of the high school. We have ten pupils on projects, for the most part of a clerical nature. This aid ceases in June 1936.

Several changes have taken place in the teaching force this year. Miss Irene Magoni of the Machon School, Miss Dorothy F. Tower of the Junior High School, Mrs. Edith Craig of the Junior High School, Miss Shirley Allen of the Junior High School and Miss Ruth Holmes assistant at the Hadley and Stanley Schools have resigned within the calendar year.

New teachers are: Miss Hazel Dullea at the Clarke School, Miss Villette Powers at Hadley and Stanley Schools, Miss Virginia Tague at Machon School and Mr. Harold Martin at the High School. Miss Geraldine Minton, Miss Margaret Lally and Miss Edna Morrison are filling positions on temporary appointments.

Report of the School Nurse

To the Superintendent of Schools:

Dear Sir:

It is my privilege to submit to you at this time my fourth annual report as School Nurse and Attendance Adjustor.

The following facts seem worthy of your attention:
School Visits
School Visits—extra.

School Visits	210
School Visits—extra	134
Home Visits	281
Notes to Parents	361
Children Excluded	98
Children referred to family physician	138
Children referred to school physicians	6
Children taken to clinic	23
Visits for contagious disease	62
Physical Examinations	1715
Vision Examinations	1715
Glasses Provided	82
Defects Found	271
Defects Corrected	120
Defects Under Treatment	70

Report of Attendance

Home Visits	76
Truants	18
Taken to Court	8

I wish to take this opportunity to thank the various individuals and organizations for their help in meeting needs arising from time to time during the year.

Respectfully submitted,

MARY K. HAMMOND, R.N., School Nurse, Attendance Adjustor.

Water and Sewerage Commissioners

WATER DEPARTMENT

To the Citizens of Swampscott:

We submit herewith our annual report for the year ending December 31, 1935:

Replacements for year have been 600 feet of brass 2-inch pipe replacing old 2-inch iron; also the usual amount of old services which have worn out with age. This work has cost us this year about \$2900, all of which comes out of our budget but does not come back, being put in to the "Available Surplus" fund.

It has been often asked why our budget is so large, and in this matter we call your attention to the Metropolitan Assessment, which for 1935 has been \$38,350 and for the last few years has increased approximately \$4,000 each year. This one item alone takes about one-half of the budget.

We have purchased two new trucks to replace the old ones in service since 1929 and 1930 and the upkeep of these old ones is not economy.

There has also been paid on the debt this year \$7,500 and about \$1,300 interest on debt. These items alone account for over \$50,000 of the budget for 1935. The new 20-inch main connection has been made and we anticipate this will give us ample supply in the future for all purposes.

Replacements this year have been replacement of 2-inch iron with 2-inch ass as follows:

Diass, as follows.

REMARKS

Appointment

J. Warren Doherty was appointed a regular patrolman on April 1, 1935, to fill the vacancy caused by the retirement of Patrolman Charles Connell.

Retirement

Captain Eugene P. Brogan was placed on the pension roll on July 1, 1935, because of physical disability received in the performance of duty. He served the department and citizens to the best of his ability from March 29, 1909, up to the time of his retirement.

Promotion

The rank of sergeant in the police department was created by the Board of Selectmen. Patrolman Francis P. Wall was appointed Sergeant on October 11, 1935.

Physical Examination

By order of the Board of Selectmen, all members of the police department reported to Doctor Loring Grimes for physical examination. The medical reports were submitted directly to the Board.

Special Police

Particular care has been exercised in the recommendation and appointment of special police officers, and many appointments made in 1934 were rescinded.

Sergeants

During the year I recommended the appointment of two sergeants; one to take charge of the morning division and the other to supervise the men assigned to patrol duty on the night division, thereby assisting them in their work in the prevention of crime and the apprehension of criminals. This, I believed would increase the morale, good order, and discipline of the department at no additional expense. One sergeant was appointed by the Board of Selectmen at a salary of \$2410.00. On my recommendation, after learning the different salaries paid to sergeants in cities and towns in Essex County, the rate of pay for the Swampscott sergeant was set at \$6.30 per day, or approximately \$2300.00 per year.

Police Rules Rescinded

The police rules and regulations adopted by members of the 1934 Board of Selectmen, which proved injurious to the efficiency and discipline of the police department, were rescinded by our present Board of Selectmen.

Morale of Department

The discipline of the police department has been excellent during the past year, to the best of my knowledge.

Traffic

During the summer months, traffic was exceedingly heavy, necessitating the placing of a traffic stand illuminated with flood-light at the intersection of Humphrey and Redington Streets, and another at the junction of Humphrey street and the Lynn Shore Drive.

Motor Patrol Cars

Our patrol cars are equipped with short-wave radio. Orders and information are first teletyped to the State Police at Framingham and broadcast by radio to the patrol officers. The contact is speedy, and excellent co-operation has been received.

Buildings

The police station is in very poor condition. The building is old and dilapitated. Any expenditure for repairs, other than operating expense, would be a waste of funds.

Juvenile Delinquency

Much can be accomplished among youth in the prevention of crime, which I believe is the most important function of any police department or law enforcement agency. Considerable effort is made to reform persons confined to houses of correction and prisons, but the greatest success in the prevention of crime lies in our work with the youth. The minds of the very young are plastic and can easily be moulded into a vessel of honor or a vessel of dishonor. No effort should be spared by police departments when an opportunity arises to assist parents in supervising the conduct of boys, who by their behavior, may grow up to lead immoral or criminal lives. Unless absolutely necessary, I do not believe in placing first offenders before the court for misdemeanors committed, if their wrongs can be remedied to the benefit of the community and offender without court action. The time to know a boy is before it becomes necessary to place him before the court, and police officers can do much along this line, for after all the problem of juvenile delinquency requires the cooperation of the police and parent for the welfare of the youth.

Transfer to Appropriation

At the end of the year I found it necessary to request an additional transfer to the police appropriation.

Officers' Time Off

During the year each member of the department had forty-five regular days off and fourteen days vacation, plus the following additional days off:

	Due to Sickness	By Special Request

Recommendation

I recommend that traffic signal lights be installed at the intersection of Paradise road and Burrill street. This is located on Route 1.A, a through way, used also by buses owned by the Eastern Massachusetts Street Railway Company and the Greyhound line. It is a busy section, with a number of places of business, and the installation of signal lights at this point would promote safety and control traffic.

Conclusion

I take this opportunity to assure the Board of Selectmen of my gratitude and appreciation for the unreserved confidence they have imposed in me, both personally and as chief of police. I will spare no effort to serve the public faithfully, and to retain the confidence and esteem of the citizens.

Respectfully submitted,

WALTER F. REEVES, Chief of police.

Board of Public Welfare

To the Citizens of Swampscott:

The Board of Public Welfare in submitting its report for the year 1935 wish the citizens to know the facts that confronted their Welfare Board during the year and hope that due consideration will be given to our efforts by reading our report. We desire at this time to extend our thanks to all who have helped by their courtesy and support during the year. Out of the depression we have learned some valuable lessons. Closer co-operation between Public Welfare and private relief organizations has grown out of need for mobilizing all of the community resources to meet the emergencies.

Demands for relief, advice and encouragement have multiplied greatly.

Many in our town who have never felt want before, including trained men and experienced workman, have suffered the fate of the unemployables.

To handle intelligently the cases produced by the long period of un-

employment is a test of the patience and justice of the department. feel that our endeavor to judge cases on their merits have resulted in few complaints of unfair treatment. We have striven to discharge our duties to those supplying or furnishing the means to aid, as well as to those requiring it.

Cumbersome and obsolete methods and systems would not take care of the immense volume of work thrust upon the department, therefore it was necessary to replace them with modern business equipment and an up-to-date

filing system, which are included in the net cost of welfare.

The facilities for handling welfare were inadequate and the charges for renovating two offices and the paying of rent outside the town hall for equipment of the Sealer of Weights and Measures department is also a part of the welfare costs. No one can fully appreciate what this means to the efficiency of the office. Still we are not satisfied, as their is need for a private room that is sound proof in which to talk with applicants.

All forms had to be revised and brought up-to-date to include the necessity.

sary laws to protect the town, also to make sure that those who sign applications for aid may realize the seriousness of doing so if they are not in need

of help.

Accurate records and prompt notifications in accordance with law requirements and thorough investigations have made it possible to turn back many thousands of dollars to the town.

In many cases people who have been fortunate enough to secure private employment and are now in a position to pay back to the town the amount of aid rendered, are doing so.

We are grateful for the sewing machines which were given or loaned, in answer to our advertisement, for the sewing project which comes under

the Welfare Department and employs thirty-three women.

A considerable amount of time is spent each month by this department on the WPA reports which are sent to the Federal office. The Federal allotments to the town depend on this report, therefore it requires much thought and care. Many other statistical reports are required, such as State cases, Old Age Assistance cases, Mothers' Aid cases, etc., which shortens the time for the regular routine work which has grown heavier each month.

Although we have eliminated considerable expense by following the suggestions of the Committee on Salaries and Wages for the year 1935, we find it necessary to request additional help this coming year to take care of

the requirements.

Many requests are received by the department from the citizens of the town for men to do odd jobs or women to do housework or sewing. We realize this has been a factor in reducing welfare costs and have set up a cardex system showing occupations. We gladly recommend these men and women, who would rather work, to any citizen and we hope to receive more requests in the future. Because of many unemployed recipients who preferred to work out aid given we have relieved costs in other departments, especially the Park Department in the grading and filling in of Phillips Park. Eleven men were assigned, putting in a total of 307½ hours' work without pay. We wish to thank the School Committee and the Superintendent of Schools for their co-operation and assistance given in completing an investigation arising from complaints received that there were a number of undernourished children attending public schools coming from families who are being aided at the present time. A report submitted by the Superintendent of Schools listed fourteen school children as cases in which there might be a question of mal-nutrition. A further survey indicated that seven of these children were from families aided by the Welfare Department and that the School Department had been taking care of these children by serving hot lunches through one means or another, thus making it unnecessary for our department to help out.

We are also very grateful to the Police Department in helping us in many ways, such as apprehending for non-support, use of transportation for

investigations, and hospitalization cases.

We are of the opinion that State laws pertaining to welfare should be changed or revised to help home owners who have equity in property, to the extent beyond which we cannot aid them.

We have gone on record as opposing substitute for House Bill No. 1024, which would give the State complete control over all Welfare Departments in cities and towns in the State. We believe that a town or a city is in a better position to know the wants of its particular community.

We have a suit pending at the present time to collect for moneys paid out for aid, which if collected will further reduce welfare costs. We have straightened out many difficulties with the State, other cities and towns where suits were to be brought against the town for moneys paid out by them for people who were on their welfare lists but whose settlements belonged in Swampscott. This matter has involved considerable time, as we had to go over the records as far back as 1929. The settlement laws as a basis of reimbursement operates quite differently from the subsidy basis of reimbursement and is highly controversial.

Local physicians and druggists have been very considerate in relieving the burden by making flat rates on Welfare cases. Hospitals, institutions and practically all those who are furnishing the necessities for the functioning and taking care of welfare cases have made liberal discounts or substantial reductions.

Public Welfare

The government coal was a tremendous help to our department in 1934. We were obliged to assume the full cost of this item in 1935 and we advertised for bids on coke and were fortunate in keeping costs on this item to a minimum, having obtained a 29% reduction over the town contract for coal.

During the year a large amount of government commodities and clothing has been distributed. These are given with no reduction in food orders, as was the ruling of the Federal government.

Probably few know the additional expense for the fiscal year to the department for rental of stores for the storing of government foods and the cost of distribution and other miscellaneous items, such as trucking, etc., and again our cost of welfare included approximately \$1000 for such items.

The Board of Public Welfare selected and made ready thirty young men from 16 years to 25 years of age who wished to enroll for the Civilian Conservation Corps. These young men come from large families who were on welfare rolls. Many of these boys enlisted and re-enlisted. They gained in weight and in health; but better still they regained their self respect. They were able to help at home. They were paid \$30 a month, \$25 of which was alloted to their mothers and was a great help in reducing the amount of aid given to families on welfare.

The present WPA rules and regulations state that those receiving welfare, supplementary or medical assistance after November 1, 1935, cannot be assigned to WPA projects even if there are vacancies. Unless this ruling is changed the welfare costs for 1936 will triple over the welfare costs of 1935.

Duties of the Public Welfare Department

- Direction of public relief, both indoor and outdoor, given to unsettled persons by other cities and towns. Supervision of mothers' aid rendered by the town.
- Supervision of old age assistance rendered by the town. 3.
- Care and maintenance of delinquent, reglected and dependent children coming into the custody of the department through court commitment or otherwise.
- 5. Institutional custody and treatment of juvenile offenders committed by the courts and the care of these children in families.
- 6. Investigation and assigning of young men between the age of 16 and 25 to the Civilian Conservation Corp.
- 7. Notification of the state, other cities and towns within the required time to obtain reimbursements on all cases.
- Investigation of bank accounts, postal savings and any other source of income or equity in properties.

Among the other supervisory and inspectional duties of the department

- may be mentioned the following:

 1. Visitation and inspection of care given children supported by the town. 2. Visitation and investigation of care given to all adults supported in
- families other than their own.
- 3. Reception and classification of persons supported or relieved and the cost

4. Visitation and inspection of public lodging houses.

Investigation of legal settlement of all cases who are supported, relieved or buried by the town.

Mothers' Aid

There has been a steady increase in the number of Mothers' Aid cases for the past five years. A number of cases were added during the last fiscal year and we are aiding at the present time six Mothers' Aid cases with a

number of dependent children under sixteen years of age.

The financial burden upon cities and towns of supporting large numbers of families which have become destitute because of the continued unemployment of heads of families has been great, in spite of State and Federal aid. If the mother aided has a legal settlement within the Commonwealth, the Commonwealth reimburses the town rendering the aid for one-third of the amount.

The benefit of Mothers' Aid extends not only to mothers with more than a number of dependent children under sixteen years of age, but it also includes other members of the household, the incapacitated fathers who are living at home, the children over sixteen years of age who cannot secure work, but who nevertheless must be housed and fed, and aged and destitute grandparents of the children, who have no other available refuge, and who receive little or no support. Many of these elderly dependents were able to work and they contributed generously to the support of the family until the depression deprived them of their livelihood.

Mothers' Aid is one of the most important as well as one of the most costly forms of public relief. It is important chiefly because it profoundly affects the lives and the welfare of a large number of dependent children, citizens of tomorrow, in that it provides for them home-life under the care of their own mothers. Moreover, the need of Mothers' Aid is likely to continue for a number of years, until the children have grown up, and the family

becomes self-supporting.

Bureau of Old Age Assistance

In the face of a rising tax rate it still has been the endeavor of the Board of Public Welfare, in so far as possible, that adequate assistance be given. To enroll a case, formerly in receipt of welfare aid, under Old Age Assistance without readjustment of the budget is not in strict compliance with the law. The provision of this law is to establish a budget which can reasonably be construed as adequate assistance so that a person can live in comfort. This applies particularly to our ordinary cases and not to those who must be given nursing care, for in these latter cases every effort is made to grant sufficient allotments so that the patient is well cared for. Old Age Assistance cases make up about 35% of our enrollment. Their ranks are constantly added to as advancing age and infirmities come upon normal enrollments.

The greatest complications encountered by the department are those where property holdings are involved. The impossibility of disposing of property, the futility of attempting either to secure a mortgage or to have a present mortgage increased have been serious detriments to those owning property whose equity value is in excess of the legal limit and has blocked enrollment of applicants so burdened. Again, many people apply where the carrying charges on property are far in excess of a reasonable budget for full maintenance and are disappointed because the allotment for rent cannot be increased to suit these excessive charges.

In cases where property has been transferred to relatives just prior to application, and many of these have been encountered, it is felt that there is some obligation on the part of the present owner to provide for the applicant to the amount, at least, of the equity in the property. It must be remembered that in computing equity the only standard that can be followed is based on the assessed value. The fact that property at this time is not readily saleable for an amount near the assessed value does not prove that the assessed value, when compared to other pieces of property in the municipality, is not a fair valuation. All property value is influenced by the condition of the times.

The requirement of a twenty-year residence in Massachusetts prior to application may be subject to criticism. Many cases are rejected because of this and still the justice of this proviso is unquestionable. There have been many applicants who removed to other states, taking up a domicile there and intending to remain who, when it was called to their attention that Massachusetts was granting Old Age Assistance, have moved back for the purpose of receiving this aid. Such removal has invariably proved a disappointment. Whether or not our twenty-year requirement is too drastic, or if a more equitable provision should be made, is still a question for the Legislature to determine.

There is also a growing sentiment toward reducing the age limit from seventy to sixty-five. It is evident that a man or woman today finds that employment cannot be readily obtained beyond the age of sixty-five, and in many cases savings have been exhausted. To drop the present age limit to sixty-five is definitely a question of money—to find the funds to finance such a change. It would probably add many to the number of recipients and require a considerable yearly increase in the budget.

The obligation of children or relatives to support or assist if financially able is invariably emphasized by local and State bureaus. There seems to be a diversity of opinion on the part of many children. Just what constitutes financial ability is the question. A complete investigation of the children's earnings and dependents is always made, and if assistance seems within the ability of the child a reasonable sum is asked—a reasonable sum which will not place an obligation detrimental to the family of the son, daughters or relatives. In most large families it has been found that one or two have willingly contributed. These are not always the ones whose financial condition warrants large contributions, while those better able refuse and show little or no interest in the welfare of the parents. Nor is the solution of the problem the statement by a son or daughter, "I will give my father or mother a home." In refusing their obligation to help, children must consider the fact that in their refusal they are shirking a just responsibility and throwing the support of an aged parent upon the community; that is, the taxpayer.

A summation of old age cases reveals that at the close of 1934 we had 31 active cases. In January, 1935, five new cases were added and a steady increase will be noted from the report of people aided. Approximately thirty-five percent of the total cost of welfare is for this purpose, or an increase of \$3,587.30 over last year's cost. If an Old Age Assistance case has a legal settlement in the State of Massachusetts, the State reimburses the town rendering the aid for one-third the amount provided. Notification must be forwarded within five days from the time the recipient is aided.

workers have been assigned to WPA projects we have had to continue aid because of the laxness on the part of WPA officials in handling * Welfare costs have doubled the last three months of the fiscal year, because of the closing down of ERA projects. Even though payrolls. Because of the fact that the men on the ERA and WPA did not get their full amount regularly, and the time was intermittent so that men with large families frequently received only \$4 to \$8 per week, it was necessary to supplement the wages of a great many

Welfare costs of other towns or cities of the same population as Swampscott are anywhere from three and one-half to five times as great as Swampscott welfare costs. Although we do not have manufacturing centers, we have the same conditions to contend with of the ERA and WPA workers. from a Welfare angle.

INVESTIGATOR OF PUBLIC WELFARE

To the Board of Public Welfare, Swampscott, Massachusetts:

Gentlemen:

I herewith submit my first annual report as investigator and visitor for the Board of Public Welfare.

Of the one hundred and eighty-six public welfare cases and fifty-four Old Age Assistance cases aided in 1935, I have investigated all and have visited each of the Old Age Assistance cases at least four times during the year as required by law. In addition to this, I have held innumerable telephone conversations in connection with my work.

In addition to the 186 accepted welfare cases there were 174 requests for aid which were dropped after a thorough investigation showed they had an income through part time work or assistance from somebody in their immediate families, and were, therefore, ineligible for town aid in accordance with the General Laws governing the functioning of Welfare Departments.

I have also checked a considerable number of settlement notices from other cities and towns. Many of these, upon investigation, were found to have had no Swampscott settlements, and were, therefore, denied Swampscott aid.

The number of cases shut off and the settlements denied after investigation, entailed a saving of many thousands of dollars to the town.

Due to the confusion and temporary suffering often caused the ERA and WPA workers by the temporary hold-up of their pay checks by the government, I have been forced to act as complaint officer, hear complaints and pass upon the individual merits of each ERA or WPA worker's case who applied for emergency supplementary aid. This has greatly added to the responsibilities of my work as well as to the departments.

The many court cases, checking of property ownerships, the process of committing persons to old age homes or Tewksbury, the finding of suitable homes for aged people who desired to live in Swampscott where they were born, and the investigating of the many new temporary aid cases as shown in the board's report have added greatly to my duties this past year.

I have received from and rendered to the Swampscott Welfare Committee

and other charitable organizations the fullest co-operation.

I again wish to express my appreciation and thanks to the other two members of the Board of Public Welfare and all others who have so kindly co-operated with me.

Yours respectfully,

DONALD REDFERN, Investigator.

The fiscal year on Old Age Assistance is from May 1 to April 30 of the next year. The fiscal year on temporary and mothers' aid is from July 1 to

June 30 of the next year.

In accordance with the foregoing paragraph, the State, and other cities and towns owe the town of Swampscott approximately \$5,100 and the additional amount to be committed from 1935 expenditures will be collected without doubt.

We herewith close our report and at this time we wish to extend our thanks to the executive secretary of our board, Abbie E. Robinson, for the

fine co-operation received during the past year.

Respectfully submitted,

JAMES W. BUCHANAN, DONALD REDFERN, WALTER H. FORBES, Jr. Board of Public Welfare.

Report of Planning Board

Up to the time of the annual town meeting held February 18, 1935, the personnel of the Planning Board was as follows: George H. Glidden, Chairman: Herbert E. Ingalls, Secretary; Henry S. Baldwin and Ralph J. Curtis.

At the annual town meeting, John R. Nagle and Daniel Santry were elected for a term of three years, and Thomas Byrd Epps was elected for a term of two years. The term of Ralph J. Curtis and Henry S. Baldwin had not expired. Henry S. Baldwin resigned February 21, 1935, and on March 7, 1935, at a joint meeting of the Board of Selectmen and the Planning Board, Edward E.

Call was elected to fill the vacancy.

At the first meeting of the Board, held February 27, 1935, Thomas Byrd Epps was elected Chairman and Daniel Santry, Secretary.

Soldiers' Memorial

Henry S. Baldwin, Chairman of the Soldiers' Memorial Committee, representing the whole Committee, presented to the board plans for a memorial consisting of a granite base with a bronze memorial plaque supporting a flag-pole to be placed on Monument avenue. The board considered the proposed memorial to be an excellent solution to the problem and unanimously approved the plans.

Special Town Meeting March 25, 1935

Report on Articles One, Two, and Four

To the citizens of the town of Swampscott:

The Planning Board has made a study of the three proposed sites for a

new high school and herewith submits its report.

In considering the site of a high school, we believe that the location is of primary importance. It should be built in as central a place as possible, so that no student will be required to travel a great distance to and from school. It is obvious that the Chick property and the present site are better located than the Phillips Park site. If the school is built at Phillips Park it will mean that students living in the vicinity of Essex street will have to travel more than two and one-quarter miles to school.

The board believes that the site of the present high school is the most central. With the growth of the town to the north and the northeast, and with the hopes of Forest avenue being made a public way, thus opening a shorter

route to Beach Bluff, this location will be further improved.

The traffic problem is another factor to be considered. Both the Chick and the Phillips Park properties are in congested areas on the main highway, while the present site of the high school is such that there is very little traffic,

except that which is directly connected with the school.

Under the present economic conditions, when the tax burden is mounting rapidly because of increased welfare costs and decreased taxable valuations, the matter of expense is one that cannot be passed over lightly. connection, the present high school site is superior to either of the others. The Planning Board believes that by the use of the present high school site, there will be a saving of at least fifty per cent over the cost of building on either of the other two sites.

With the information we have at hand, we feel assured that the present site is adequate to provide facilities for an enlarged high school without pur-

chasing any more land and without doing any filling.

We have been informed that the fundamental structure of the present building is sound. If the Phillips Park site is used, the present high school will be abandoned and under the terms of the deed to the town, we understand the land and building will revert to the Phillips heirs. This would result in the loss of valuable property. If the Chick site is used, the present high school will be used for an elementary school.

The playground facilities in Swampscott are now inadequate. There are only three playgrounds and no provisions whatsoever is made for the younger children. We believe that this is a problem to which the town must give attention in the near future. Phillips Park should be developed for the benefit of

the children in that vicinity. We are strongly opposed to the taking of it for a high school, thus abandoning the hope of doing anything for the smaller children on this site.

There is no doubt that the town is in need of better high school facilities, and we urge that this meeting take some definite action on the matter tonight.

Therefore, we recommend that the town proceed with alteration of and addition to the present high school building and appropriate money therefore.

Thomas Epps, the chairman of the Planning Board, dissents from this report and wishes to present a minority report.

Respectfully submitted,

DANIEL SANTRY, Secretary, EDWARD E. CALL, RALPH J. CURTIS, JOHN R. NAGLE.

Minority Report

To the Members of the Representative Town Meeting:

As the minority member of this board, I wish to report that I have carefully examined all of the three proposed sites as contained in Articles 1, 2 and 4 and the report on all three is grouped herein.

Based upon most thorough study I believe that all three of the proposed locations will prove adequate, both as to location and area of the property.

I am aware, and it has been amplified in debate, that certain disadvantages pertain to each and every location. The geographical plan of this town, the arrangement of its traffic arteries, and the past uncontrolled development of its property have all combined to preclude an ideal solution to this problem.

I believe that an appreciable difference in initial building cost will exist between the three locations and I concur with the majority of the Planning Board on this phase of the report.

I also agree with the majority report with respect to the loss of a play-ground for small children if Phillips Park is taken for this school site.

In any plant where units can be combined, better and more efficient service can be rendered at less operating cost. Operating economy over a period of years can effect huge savings and must be considered in any planning project. I am impressed with the economy both as to plant operation and man-power operation that can exist if the so-called Chick property is selected. I consider that initial land taking expense will be off-set by the practical utilization of certain parts of the existing structures and that operating economy can be greater than tax revenue which will be lost.

It is also my belief that the town will ultimately turn to Monument avenue for the location of other public and semi-public buildings. If this is a correct prophecy it is then wholly consistent and natural to consider the development of the Chick property for a High School as the first step towards an ultimate Civic Center in that area.

An assembly hall seating 700 persons is badly needed for town meetings and other gatherings. The use of such a one in this building at the Chick site would be an added public convenience that cannot be ignored in any comprehensive report.

In noting these important advantages I have not ignored the disadvantages of the site. The sketches submitted were hastily prepared and should undergo considerable revision, a fact which I know is recognized by the School Committee. A building on this site must and can be set back a proper distance from Monument avenue and its facade must be symmetrically disposed on that avenue. Shifting of the elementary population to the old High School will present a problem which the School Committee can and must solve. While depreciation is essentially intangible it must be considered. I believe that it will exist but only to a small degree if this property is taken and that this factor has been considerably over-emphasized.

In summary, for such major reasons as economy in operation, future civic development, and the public convenience of an adequate assembly hall, I recommend that the voters of this town meeting acquire the so-called Chick property as outlined in Article 1, and that action under Articles 2 and 4 be indefinitely postponed.

THOMAS BYRD EPPS, Chairman of the Planning Board.

Playgrounds

The Planning Board feels that the town is seriously in need of adequate playgrounds for the small children, with proper equipment for their recreation and enjoyment. At the present time, there are three playgrounds in the town, to wit: Jackson, Abbott and Phillips Park. These are all used by the athletic teams of the schools and by the older boys, engaged in such rough play that it is impossible for the younger children to attempt to use them, nor is there any equipment on them to attract the young children The town is now built up to such an extent that unless prompt action is taken, adequate sites will not be available. Children up to the age of ten now have only the beaches in the short summer months and the streets in front of their homes for play. We feel that this is a very dangerous and undesirable condition and should be remedied as soon as possible.

With this in mind, the board has made a survey of the town and has tentatively selected ten sites for playgrounds for the children up to the age of ten years. The board has tried to select these sites so that it would be possible for the children to reach them without crossing any heavily traveled streets, thus cutting down the possibility of accidents.

As this proposal is in the nature of an experiment, we feel it should be tried out on a small scale before the town spends any large sum of money. This can be done, we believe, by first establishing these playgrounds on property owned by the town at the present time. There is room in the yards of the Machon, Clarke, and Stanley schools for grading and equipping small playgrounds with swings and other suitable apparatus.

The Planning Board met with the Park Department, the School Board, and the Board of Selectmen during the past year for the purpose of having these sites developed as playgrounds and to provide emergency employment as ERA projects. All these boards endorsed the project. On June 18, 1935, a request in writing was addressed to the Finance Committee for a joint meeting to discuss ways and means for creating this work as an ERA project. No reply has ever been received by the Planning Board to this request.

The Planning Board also recommended to the Park Board and the Board of Selectmen, that playground instructors be secured as an ERA project. This recommendation was approved and we understand that instructors have been secured.

The Planning Board will continue to recommend and work for the creation of these playgrounds for the little children until it is brought before the attention of the citizens for action at a representative town meeting.

THOMAS BYRD EPPS, Chairman, DANIEL SANTRY, Secretary, EDWARD E. CALL, RALPH J. CURTIS, JOHN R. NAGLE.

The World War Honor Roll

At the last annual town meeting it was voted to accept the report of the World War Honor Roll Committee and adopt the recommendation carrying an appropriation of \$4800. The committee was continued with instructions to erect an honor roll and flag pole on the oval park at the intersection of Monument avenue and Elmwood road, substantially as described in the report.

The services of Parsons & Wait, architects, were secured to make plans

The services of Parsons & Wait, architects, were secured to make plans and drawings so that bids could be obtained. At the same time, the committee commenced the work of compiling a list of all citizens of Swampscott who served in the Army, Navy or Marine Corps of the United States during the period of the World War. This involved the most painstaking check of names and every official source of information was sought. Upon the completion of the list it was posted in the Town Hall to afford every veteran and citizen

the opportunity to examine it before the bronze tablets were cast.

Much preliminary study of plans and estimates was necessary to make reasonably sure that the project could be carried through within the appropriation. Specifications and drawings for the granite base and bronze monument being completed, an advertisement was issued calling for sealed bids to be opened July 12. Three companies submitted proposals, the Gorham Company, Thomas McGann & Sons Company, and the John Evans & Company. As there was little difference in the amounts named, it was voted to award the contract to the Thomas McGann & Sons Company of Boston, with the understanding that the modelling was to be done by the John Evans & Company of Boston, and the granite base cut and set in place by the Austin Ford Company of Cambridge.

This set up of contractor and sub-contractors, all of the highest reputation, insured full co-ordination of all agencies and the best ultimate results. Through-

out the wisdom of this course was apparent.

All departments of the town co-operated with the committee to make a success of the enterprise. Particular mention should be made of the assistance given by the Engineering Department under W. W. Pratt, and the Highway Department, under M. J. Ryan, both in the laying out and construction of the foundation, and also the grading and walks.

The chairman undertook the duty of handling correspondence and details of contracts, thus dispensing with the services of a general contractor with a substantial saving to the town. He also directed all designing and modelling

subject to the approval of the committee.

The work proceeded during the summer and fall and was completed about the middle of November. In view of the importance of the undertaking, the committee deemed it unadvisable to hurry the work through at an earlier date.

As the honor roll and flag pole stand completed before the public a lenghtly description is unnecessary. However, it should be noted that the design through out is original and was developed by the chairman with the co-operation and

approval of the committee.

The stone base is of Deer Island granite of massive construction resting on a reinforced concrete cement foundation. Upon the die of the base rests the bronze monument carrying the four tablets with the names of five hundred and thirteen Swampscott citizens who served in the World War. Directly above the granite is banded reed work denoting union; at each corner is a bold pilaster with native oak leaves in high relief, denoting strength and bravery; at the top of each pilaster is an eagle, denoting freedom; just behind the eagles is an octagonal die on which appear in four tablets the words Honor Roll World War. Resting on this die is a banded wreath of laurel, denoting victory; above the wreath is an ornamental band of acanthus leaf and water lily design; above is the bronze band that prevents water from flowing within the monument. The flag pole is of Douglas fir, 70 feet in length, with truck and ball at the top. It was supplied by the Pigeon Hollow Spar Company.

The walk around the lower base of the monument is at the same grade as the roadway at the northly side of the oval park. Owing to the natural downward grade of the road the monument appears at the proper level. There are

two curved walks, one on each side quarter.

There is a P. W. A. project which has been approved, providing granite edge stones to be set around the park. This work will be carried out when the

weather permits.

The ornamental electric light pole that formerly stood in the middle of the plot was moved to the parking at the north, and at the same time, the committee arranged for underground conduits to be placed so that two additional ornamental lights can be placed in the parking flanking the Honor Roll on Elmwood road and Monument avenue.

When preliminary estimates were reviewed it appeared that the cost would somewhat exceed the appropriation. For this reason, the flag pole and flag were not included in the contract, the Chairman offering to advance the necessary funds, about \$250, to complete the project as ordered by the town, in

the belief that repayment would be made.

The Honor Roll Flag Pole was unveiled and dedicated December 1, in the presence of veterans and citizens. The exercises were preceded by a parade of veterans under Chief Marshal Major George J. Place, with Ralph

D. Merritt, Chief of Staff.

After the invocation had been pronounced by the Rev. Cornelius Buckley, the rituals of the Veterans of Foreign Wars and the American Legion were read, followed by the unveiling by Commander Curtis D. Noyes of the Stevens Post, V. F. W. and Commander Joseph Hines, of the Leon E. Abbott Post, A. L. During the raising of the flag "To The Colors" was sounded by Lieutenant Eustis B. Grimes, D. S. C. staff bugler. The Rev. Edson G. Waterhouse pronounced the benediction. A short address was made by Henry S. Baldwin, chairman of the Honor Roll Committee, on behalf of the committee, and the memorial was formally presented to the town through the Board of Selectmen. Chairman Philip E. Bessom made a fitting response.

In concluding its duties the committee recommends the removal of high trees and shrubbery in front of the Honor Roll plot. Also that the plot itself be grassed over and a few low hemlocks or similar low shrubbery be set out

not to detract from the monument or obstruct the view of traffic.

Honor Roll Committee,

HENRY S. BALDWIN, Chairman, RICHARD H. McNAMARA, BYRON H. PORTER.

Forest Warden

To the Board of Selectmen:

I herewith submit the annual report of Forest Warden. This report covers conditions as I have found them since assuming office in November.

The records show that forty-eight brush and grass fires were attended, covering a total of thirty acres, and that but one of these fires reached a pro-

portion so that outside help was needed.

The equipment of this department is obsolete, and I recommend that one dozen wire fire brooms be purchased to replace the old style straw brooms, and that four-hand pumps be purchased to replace the two old "two-man" pumps, which have proven both cumbersome and inefficient. As this department has the fine co-operation of the Fire Department and as the potential fire hazard is confined to grass fires, I thoroughly believe that the small expenditure for the above articles should adequately take care of any and all woods fire.

Respectfully submitted,

FREDERICK C. BURK, Forest Warden.

NOTE—This is not a town of Swampscott trust fund as defined by Chapter 282 of the General Acts of 1915, but is held by the Town Treasurer as Trustee for the Swampscott High School Alumni. It is included in this report in order that the members of the High School Alumni may be kept informed of its existence.

Respectfully submitted,

JAMES W. LIBBY, Town Treasurer.

Treasurer of Trust Funds and Custodian of all funds and securities, as provided for by Chapter 282 of the General Acts of 1915.

HENRY S. BALDWIN, CONRAD P. RICHARDSON, JAMES W. LIBBY, Trust Fund Commissioners.

Surveyor of Highways

To the Citizens of Swampscott:

I herewith submit my annual report for the year of 1935:

All construction work this year has been done by contract. On Humphrey street, from the Monument to the junction of Puritan road, the wooden blocks were removed under the direction of State Highway Engineers and the roadway resurfaced with mixed asphalt top. The work was done by A. R. Doyle Inc. of Boston, the expense being borne one-half by the State and one-quarter by both the County and the town.

Monument avenue, westerly side, from Burrill street to the junction of Thomas road was resurfaced with bituminous macadam asphalt, the work being done under contract by the M. McDonough Co. of Swampscott and Saugus.

Nason road and Aspen road, where sewers were laid, were reshaped and surfaced, the former with tarvia lithic and the latter with gravel and oiled with No. 6 asphalt road oil. Several streets have been reshaped and sealed with

retread tar and sand.

Repairs have been made on sidewalks where needed and the following amounts of material used: 185 tons of stone dust and 126 loads of gravel. Two hundred twenty-seven yards of granolithic sidewalks were repaired. Tar or asphalt concrete sidewalks on the following streets were repaired either wholly or in part: State road, Ellis road, Middlesex avenue, Norfolk avenue, Orient court, Puritan road, Kensington lane, Aspen road, Woodbine avenue, Essex street, Andrew road, Hillside avenue, Elliot street, Eastman avenue, Crescent street, Humphrey street, Highland street, Mapledale place and Clarke road. I would recommend that the appropriation for sidewalk maintenance be increased.

Both Fisherman and Whale beaches, the latter being in front of the New Ocean House, were cleaned every day from May 28 to September 20. Palmers

beach was cleaned eleven times during season.

Burrill street, from the State road to the Monument, Humphrey street from the Lynn line to Marshall street, were cleaned every day, Sundays included, during the summer months. Shoulders on Essex street and on Atlantic avenue were reshaped five times during the year. Several streets were treated with either tar or asphalt road oil and covered with sand. Two manholes were repaired and 104 feet of pipe drain laid. The number of feet of curbstone reset during the year was 146. Fifty-four driveway curbstones were lowered.

during the year was 146. Fifty-four driveway curbstones were lowered.
All catch basins on Stetson avenue from the Boston and Maine bridge to Essex street, have been rebuilt this year and one at the junction of Salem street and Tedesco road. All gutters and catch basins on all streets have been cleaned when needed. About 2000 yards of tarred and mixed stone has been laid in the gutters to prevent washing out. On Puritan road opposite the Little estate, where the water used to stand after every shower, it has been resurfaced with asphalt mixed top. The usual work of patrolling street surfaces has been done. Some 35,559 gallons of asphalt road oil and tar were used on the streets, the same being purchased under contract. The tar or oil applied on the streets was covered with sand.

Snow removal and sanding of slippery streets is of an emergency nature which cannot be definitely planned, but the department must be prepared. Snowfalls occur at any time of day or night and vary in force. All trucks and the tractor of the department are equipped with snow plow frames in the fall, to which the blades can be attached on short notice. At the first indication of snow, these blades are attached, so that the equipment can start as soon as necessary. All intersections, hills and curves must be covered with sand. The sand is treated with calcium chloride. Seven hundred and fifty yards of sand was used on sidewalks and icy streets this year.

New equipment has been added to the department as follows: one onehalf bag mixer and one pair of horses, to take the place of two that died this

The working force of the department consists of twenty-eight men, same as last year.

RECOMMENDATIONS

Owing to the condition of the roof of wooden buildings at the town yard, would recommend that they be repaired and that money be appropriated fo same.

That the town rebuild the iron pipe fence under the Boston and Maine

bridge on Burrill street.

That the town build a fence on Bay View Drive.

That the town purchase the following equipment: one motor driven sidewalk plow and one truck to take the place of one that has been in service for the past ten years.

Respectfully submitted,

MICHAEL J. RYAN, Surveyor of Highways.

Tree Warden

To the Board of Selectmen:

In submitting this report, I may say that in general the trees of the town are in good condition, due to the fine care of the late Bernard B. Kennedy. There are, however, a few large cavities in several trees which were not treated because of the lack of funds allowed to this department. Large cavities require a great deal of time, supplies and equipment, but when finished their aesthetic value alone can not be measured and the life of the tree has been indefinitely extended. Already one large cavity which was caused by a rot following lightning damage many years ago, has been completely treated and another is in the process of treatment. We have, at the present time, a few expert tree men in the town who are receiving town aid. If these men were turned over to this department to work on other cavities, it would be advantageous to the town and allow the regular men to go on with current work.

It has been noticeable within the past few months that many small shade trees have been damaged and some entirely killed by careless auto drivers and truck drivers. We sincerely hope that the citizens will co-operate with the

department in being more careful of the small shade trees.

We are handicapped at the present time, due to the lack of a centralized location for the storage of equipment and the lack of a proper work shop. I recommend that the present shed, situated on the highway department property, be renovated to a two story building, so that the ground floor may be used as a garage and for storage of spraying equipment and that the second story be used as a workshop and storeroom for smaller equipment. A building of this type would serve a two-fold purpose of centralizing equipment and the saving of the expenditure of rent over a period of years.

Respectfully submitted,

FREDERICK C. BURK, Tree Warden.

Moth Superintendent

To the Board of Selectmen:

After a careful survey of the town I submit this report as Moth Superintendent, in regard to the needs of this department as well as to the work done

during the past year.

There does not seem to be any apparent damage done by insects, other than in a small concentrated area infected with silver maple cottony scale, which may readily be checked in the spring by the application of a miscible oil spray. The town has been well covered for gypsy moth clusters and a great

many have been found and painted with a creosote compound.

There seems to have been a great deal of criticism concerning the spraying. The town is large for the present equipment, and it is my recommendation that the town purchase an additional sprayer. As the present auto truck is now badly in need of repair and as a large expenditure would be needed to put it in condition for daily use, I also recommend that a new truck be purchased, so that during the busy but short period allowed to spraying, we may keep two trucks and sprayers working and use the old truck only during this rush season. In this way the town may be covered effectively.

Respectfully,

FREDERICK C. BURK,
Moth Superintendent.

Superintendent of Cemetery

To the Board of Selectmen:

I herewith submit my twentieth report as Superintendent of the Swamp-scott Cemetery. The number of interments for the year 1935 was 68. Thirty one lots were sold, all with perpetual care, and three lots were transferred to perpetual care, the amount received being \$5635.50, which was paid

to the Treasurer and added to the Cemetery Lots fund.

I am glad to report that much of the new addition to the Cemetery has been completed, which will give us lots sufficient for many years to come. All new lots completed were numbered and plans prepared by the Town Engineer, showing the number and location of each lot. Trees were planted where needed and all walks were graveled where necessary. The Chapel was painted, also the tool shed and the Cemetery gates. The new addition adds greatly to the beauty of the Cemetery and everything in general has passed very favorably during the year.

Respectfully submitted,

THOMAS HANDLEY, Superintendent.

Proposed Stetson Avenue Underpass

In accordance with the vote of the special town meeting of May 1, 1935, the Moderator appointed Henry S. Baldwin, Edward J. Connelly and Alfred B. Jones to serve with the Board of Selectmen as a committee to study the advisability of constructing an underpass for pedestrians under the Boston and

Maine Railroad to connect Essex street with Stetson avenue.

The construction of such an underpass is a costly proposition per linear foot of underpass constructed, on account of the temporary structure required to support and maintain traffic on the main line of the railroad during the construction of the underpass. All the construction work within the railroad location must be contracted for and carried out under the supervision of the Boston and Maine Railroad engineers. The underpass would be constructed of precast massey concrete pipe 84.5 feet in length with a clearance of 7 feet 7 inches, together with the necessary head walls and excavation. The estimated cost of this work would be \$6,900.00; temporary track supports, traffic protection and engineering contingencies are estimated to cost \$10,100.00. The town must acquire land and construct the approaches from Essex street and Stetson avenue to the underpass at an estimated cost of \$1,800.00. The total cost of the project as will be seen by the above estimates would be \$18,800.00.

The following survey was made to ascertain the number of people crossing

the tracks at the site of the proposed underpass;

The count was taken Monday, August 5, 1935, from 6 A.M. to 9 P.M. There was a ball game at Jackson Park during the early evening. The following is the result:

	Trains	Men	Women	Children	Total
6 A.M.—7 A.M.	3	3	4	0	7
7 A.M.—8 A.M.	5	8	0	0	8
8 A.M.—9 A.M.	8	5	4	0	9
9 A.M.—10 A.M.	4	0	0	5	5
10 A.M.—11 A.M.	4	1	0	6	7
11 A.M.—12 Noon	2	0	6	7	13
12 noon—1 P.M.	5	2	1	2	5
1 P.M.—2 P.M.	3	2	3	6	11
2 P.M.—3 P.M.	4	0	0	. 0	0
3 P.M.—4 P.M.	3	1	3	2	6
4 P.M.—5 P.M.	6	6	2	11	19
5 P.M.—6 P.M.	8	4	0	0	4
6 P.M.—7 P.M.	5	5	6	5	16
7 P.M.—8 P.M.	2	8	0	5	13
8 P.M.—9 P.M.		0	0	0	0
					11
Total		45	29	49	123

The committee feels that this is a project that has to do with the safety and convenience of a large number of the Townspeople in that part of the town but in view of the seemingly excessive estimated costs of it at this particular time, the matter should be laid in obeyance.

PHILIP E. BESSOM, R. WYER GREEN, LESTER B. MORLEY, EDWARD J. CONNELLY, HENRY S. BALDWIN, ALFRED B. JONES.

Committee for New Fire Pumper

To the Citizens of Swampscott:

At the adjourned annual town meeting held February 25, 1935, it was voted

under Article 11:

That the Board of Fire Engineers, together with the Chief of the Fire Department, the Chairman of the Board of Selectmen, Philip E. Bessom, the Chairman of the Finance Committee, John H. Blodgett, and Ralph Maxwell, be authorized to purchase a 600 gallon triple combination motor pumper and equipment for the Phillips Beach Fire Station, and that \$8,100.00 be appropriated therefor, and that they be further authorized to dispose of the present old apparatus."

Pursuant to the foregoing vote the committee organized March 4 and considered specifications for the new pumper. Bids were received and publicly opened on March 22 and subsequently the representatives of several of the bidders came before the committee to discuss the merits of their respective machines. After giving much consideration to the various bids received, a majority of the committee voted on April 4 to purchase a Seagrave No. 8 "Junior" Triple Combination Pumper.

The new engine was delivered on July 15, at which time the usual pressure and capacity tests were made on the grounds of the Haines-CeBrook Ice Cream Co. at Floating Bridge under the supervision of representatives of the New England Insurance Exchange. Hill climbing and other road tests were also held, and on July 20 the committee voted to accept the new engine, which was immediately placed in service and has proven very satisfactory.

The old apparatus has been stripped of whatever equipment might be

of use. The chassis and obsolete equipment has been junked.

Respectfully submitted,

PHILIP E. BESSOM, RALPH S. MAXWELL, ROY F. OLSON, THOMAS P. MARTIN, HENRY A. SADLER, JAMES WARNOCK.

Jury List

Approved January 9, 1936

Trustees of Public Library

To the Citizens of Swampscott:

The Board of Trustees of the Public Library herewith present their annual report:

Attendance and Circulation

The attendance and the circulation have been slightly less than in 1934, except in the juvenile department, where there has been an increase both in

attendance and in the circulation of fiction.

Increased employment, due to improved business conditions, is the explanation offered by the American Library Association, which reports for the country as a whole a slight decrease in circulation. People, apparently, have less time to spend in reading.

Repairs

Last summer iron railings to match the fence were erected on the steps at the front entrance to the library, the urns and the fence were repaired and painted, and minor repairs were made to the building itself.

The proper care and preservation of the building require that it be painted during the current year.

Additional room for books must be found, and the most economical solution is to prepare a large room in the because the the solution is to prepare a large room in the basement for the purpose. To this room will be transferred those books which are most inactive, thus making room in the main stacks for the new and the more active books.

For a list of those who have presented books and magazines during the year and for the statistics of circulation, attendance, and the number of volumes in the library, you are referred to the librarian's report which follows:

Respectfully submitted,

GUSTAVUS J. ESSELEN, LEE T. GRAY, RALPH H. NUTTER, Board of Trustees.

Board of Selectmen

To the Citizens of Swampscott:

The Board of Selectmen submits herewith its annual report for the year 1935, together with the reports of all other officers, boards and committees submitted in accordance with the by-laws. There is also appended the budget of appropriation asked for the conduct of the various departments during the year 1936.

The year 1935 has been a busy and an interesting one. ERA—WPA workers have been kept employed up to our full quota throughout the year, with the result that much has been accomplished on various projects.

While the attention of the board has been employed in many activities, we mention below only those for which we are directly responsible or which from their importance merit special mention.

ERA and WPA

One of the major problems with which the Board was faced early in the year was the Federal Unemployment Relief program. This had been started in 1933 as a C.W.A. program and changed in April, 1934, to the Emergency Relief Administration.

During the year 1935 approximately \$93,000 was paid in wages by the Federal Government to 150 men and women of Swampscott, representing a weekly payment of nearly \$1800. In addition to this money distributed as wages for work done large quantities of surplus commodities, clothing, etc., were distributed. The official figures from the surplus commodity division in Boston show that from October 1, 1934, to the end of the year 1935, the market value of food granted to Swampscott was \$5,341,49 and of clothing. bedding, etc., \$11,478.30. This includes over 800 pounds of prunes, 275 bushels of potatoes, 1½ tons of cabbage, 800 pounds of rice, 300 pounds of butter, 300 pounds of sugar, 1900 cans of milk, 550 pounds of cheese, 2½ tons of veal and 8½ tons of canned meat. The clothing included 12,626 articles. A very large percentage of the persons benefitting from this Federal program would ordinarily be required to seek relief from the Public Welfare Department of the town.

Sanitary sewers were constructed on Stanley road, Allen road, Dale street, and Sumner street. Drains were laid on Forest avenue, Humphrey street, Atlantic avenue and Sherwood road. Approximately twenty acres of brush adjoining private property in the town were cleared of tent caterpillars and other pests. Construction of a football gridiron was started at Phillips Park and five acres in the Jackson Park area were cleared and grubbed of underbrush. A canvass of town property owners was conducted to encourage building and repairs under the Federal Housing Administration. In November of this year the Emergency Relief Administration was discontinued, the local office closed and the Federal Government launched its Works Progress Administration with a district office located at Salem and the various town departments acting as their own sponsors for projects.

As this plan of departmental sponsorship would entail a great deal of detail work and possible confusion, the board established a central office to which all WPA matters could be referred. Under this program further development is proceding in the Town Cemetery; work of clearing Jackson Park is continuing; Danvers road has been improved; a rodent pest project for extermination of rats in the vicinity of Phillips Park has been completed; a project for preparing outlines and plans for a proposed Civic Center is underway and a substantial start is being made towards the proper control of Hawthorne brook. A recreational project has been laid out and started. About 150 men and women are now employed on WPA in the town and their continuous employment throughout the winter is assured.

Fire and Police

Early in the year the police regulations, which were the cause of considerable controversy last year, were rescinded. Later the Selectmen voted that each member of the Fire and Police Departments be given a physical examination. Dr. Loring Grimes was selected for this work and rendered a complete and satisfactory report.

On the resignation of Capt. Eugene P. Brogan from the Police Department, the office of Police Captain was abolished and the office of Police Sergeant established. Appointment to this office was made after civil service examination, the appointment going to officer Wall, who received the highest

marks.

The physical examination brought to light a number of cases in each department where the men were not in good physical condition. Efforts have been made to correct these disabilities in each case and next year's examination, should it be held, will doutless show considerable improvement in the physical condition of the men. The board strongly recommends that these examinations be held each year.

On vote of the town, a new fire pumper was purchased for the Phillips Beach station, thus providing that section of the town with protection which

was badly needed.

Liquor Licenses

Under the statutes, the Board of Selectmen are constituted the licensing authorities for the town. Recognizing that the town is a residential community, we have shaped our policies accordingly. In a number of cases we have felt obliged to refuse licenses for reasons which we considered sufficient. In every case where appeal was taken to the Alcoholic Beverage Commission, the board has been upheld by the Commission.

Permanent Road Construction

It is the opinion of the Board, confirmed by discussion with the Surveyor of Highways, the Finance Committee, and the Town Engineer, that our present policy of patchwork road repair is inefficient and uneconomical. A road which is patched this year requires attention each year, whereas a permanent surface would last indefinitely with very little attention.

We believe that an amount should be spent each year for permanent

We believe that an amount should be spent each year for permanent road construction, and are inserting an article in the warrant for the annual town meeting for consideration at that time. We recommend favorable action

by the voters.

Economy

During the past two years the town has been committed to extraordinary expenditures. The High School addition, the Hawthorne brook culvert, welfare costs and ERA projects, are the outstanding examples of these. It is hoped that with the improvement of industrial and business conditions these expenditures will in part diminish. Paying for a High School addition, however, will require fixed payments over a number of years to come.

We feel it is now important to take a definite stand against increasing expenses of government. We do not refer to wages paid to labor and others in the employ of the town. On several occasions the voters have indicated their desire not to cut wages. Apparently many feel wage cutting is question-

able economy.

It is generally felt, however, that there are small economies which could be practiced in each department which, taken all together, would effect an appreciable saving for the town. Other than to say whether expenditures are within the law, the Selectmen have no control over money spent by elective departments other than their own. We think it proper, however, to urge each department head to scrutinize with great care every expense, and to incur commitments or indebtedness only as absolutely necessary. It is our purpose to apply this principle in our own department, and in those departments under our supervision.

During the past two or three years it has been stated by an increasingly large number of citizens that a substantial economy in the public service could be effected by consolidating some of the departments under a Board

of Public Works.

Two committees have reported in favor of such consolidation, namely the committee appointed in 1934, which reported to the annual town meeting in 1935, and the 1935 finance committee, which reported to the special town meeting of January 13, 1936. Neither report was sufficiently convincing to receive the endorsement of the majority of the town meeting members, although each committee gave time and consistent effort to the same.

It is an open question whether departments like the highways, parks,

It is an open question whether departments like the highways, parks, etc., can be operated at less expense and with greater efficiency if consolidated with a Board of Public Works at the head and a superintendent over each division, or by leaving each department under an elective head or board as at present. We express no opinion on the matter. It is doubtful if there has yet been gathered together sufficient data on which to base an opinion. Comparisons with other cities and towns are of no value unless the comparative

statistics are detailed and complete.

There is so much public interest in this question, and its recommendation means so much to the town, that we feel the study of the question should continue. We believe it would be advisable to appoint a small committee of men experienced in business and municipal affairs to carry on a further study and investigation, and to make a written report to the town, and that said committee should be provided with a sum not exceeding \$100 for stenographic and clerical work and for printing a sufficient number of reports to mail to town meeting members when ready. We also believe that the scope of the committee's work should be broadened, so that their study may not be confined merely to the question of a Board of Public Works, but to any other method of effective economical management. To that end we have inserted an article in the warrant for the annual town meeting to provide for the appointment of such a committee.

Finance Committee

Prior to the time that Swampscott adopted the representative town meeting act in 1927, the finance committee of the town consisted of six members selected at large by the Moderator. The representative town meeting act requires that there be a finance committee of one member for each precinct, and as there are eight precincts this means eight members.

Ever since this went into effect there have been frequent complaints as to the unwieldiness of a committee of eight, the difficulty of getting them all together and the further difficulty of getting work done without a waste

of too much time in general discussion.

Moderators seem to experience increasing difficulty in finding a representative town meeting member in each precinct who is willing to give the

time properly required for finance committee work.

The finance committee is a non-political body. Its functions are of great importance. Finance Committees have proved of great value in town affairs. As a rule the citizens place strong reliance upon their recommendations. The service required of them is not easy, nor is it popular. The duty of a finance committee is that it shall be a non-partisan body of hard headed citizens with the power to look into all undertakings, commitments, and expenditures and with the duty of reporting to the town meeting its recom-

mendations relative to each proposed appropriation.

A number of persons deeply interested in town affairs have spoken of the advisability of having a committee of five instead of eight, and of allowing the moderator to select them at large instead of by precinct. In the past this has not been detrimental. There have been finance committees prior to adoption of the representative town meeting act which are still remembered for their ability and accomplishments. Moderators, when having the right to pick a committee at large, have always endeavored to have the different parts of the town represented. Indeed, a finance committee from one section only might have difficulty prevailing upon the town to adopt its recommendations. The drawing of precinct lines in selecting a committee, however, has proved a handicap to the moderator in obtaining at times services of competent men.

For this reason we have placed an article in the warrant which will enable the town meeting members to take whatever action they deem proper.

ADMINISTRATIVE

Bonds of Town Officers

Bonds of the following officers are given except as noted by the American Surety Co. of New York, in the amounts stated:
Ralph D. Merritt, Collector of Taxes
James W. Libby, Town Treasurer (Massachusetts Bonding and Insurance Co.) \$46,500.00

The above amounts are set by the State.

Town Warrant

Monday, February 17, 1936.

Essex, ss.

To either of the Constables of the Town of Swampscott in said County: Greeting:

In the name of the Commonwealth of Massachusetts you are directed to notify the inhabitants of the town of Swampscott, qualified to vote in elections and in town affairs, to assemble in their respective precincts, in said Swampscott, on Monday, the seventeenth day of February, at 6 A. M., then and there to act on the following articles, viz:

At the close of the election the meeting will adjourn to Monday, February 24, 1936, at 7:45 P. M., at the Town Hall.

Article 1. To choose a Moderator for one (1) year.

To choose a Town Clerk for one (1) year.

To choose three members of the Board of Selectmen for one (1) year. To choose one member of the Board of Assessors for three (3) years. To choose one member of the Board of Assessors for two (2) years to

fill vacancy.

To choose two members of the School Committee for three (3) years. To choose one member of the Board of Public Welfare for three (3) years.

To choose one member of the Board of Health for three (3) years. To choose one member of the Water and Sewerage Board for three

(3) years.

To choose one member of the Park Commission for three (3) years. To choose one member of the Board of Trustees of the Public Library for three (3) years.

To choose one Tree Warden for one (1) year. To choose three Constables for one (1) year.

To choose two members of the Planning Board for three (3) years. To choose one member of the Board of Commissioners of Trust Funds

for three (3) years.

To choose eight (8) representative town meeting members in each precinct for three (3) years; To choose three representative town meeting members in precinct one for two years and two (2) representative town meeting members for one year.

To choose one (1) representative town meeting member in precinct eight for two years.

All to be chosen on one ballot.

Article 2. To vote by ballot: "Shall an act passed by the General Court in the year nineteen hundred and thirty-six, entitled 'An Act making the provisions of the Civil Service Laws applicable to the town of Swampscott with respect to certain appointed officers and employees of the Accounting, Assessors, Cemetery, Engineering, Health, Library, Moth and Tree Warden, Park, Police, Public Welfare, School and Water and Sewerage Departments and of the Board of Selectmen, and to the janitor of the Town Hall,' be accepted?"

Article 3. To hear and act on the reports of town officials, boards and committees.

Article 4. To see what amount of bonds will be required of the Town Clerk and Custodian of Trust Funds for the ensuing year.

Article 5. To see if the town will vote to authorize the Town Treasurer, with the approval of the Selectmen, to borrow money, from time to time, in anticipation of the revenue of the financial year, beginning January 1, 1936, and to issue a note or notes, therefor, payable within one year, and to renew any note or notes as may be given for a period of less than one year, in accordance with Section 17, Chapter 44, General Laws.

- Article 6. To see what action the town will take in relation to salaries of the Surveyor of Highways and Water and Sewer Commissioners for the ensuing year.
- Article 7. To see what action the town will take in relation to the recommendations not calling for the appropriation of money, as contained in the reports of officers, boards or committees.
- Article 8. To see what action the town will take in relation to the recommendations calling for the appropriation of expenditure of money, the creation of a debt, or the disposition of town property, as set forth in the reports of officers, boards or committees.
- Article 9. To see what action the town will take in relation to the appropriation of money for departmental and other expenses, as recommended and set forth on pages 208 and 209 of the annual town report.
- Article 10. To see if the town will vote to authorize the Moderator to appoint a committee of not less than three nor more than five persons to make a study of the public service, particularly as to whether the public service may be operated to better advantage, with greater economy, and with more efficiency by consolidating departments, by establishing a board of public works, by remaining as at present, or by any other arrangement; and to report its findings to the town, such report to be printed and to be mailed to each town meeting member not less than ten days prior to any town meeting which it is proposed to place the report before; said report to be made at least thirty days prior to the date of the next annual town meeting, and that for the use of said committee in carrying on its work the sum of \$100 be appropriated, as recommended by the Board of Selectmen.
- Article 11. To see if the town will vote to authorize the selectmen, or any other board or officials the town may desire, to petition the legislature to amend Chapter 300 of the Act of 1927, the so-called representative town meeting act, by providing that there shall be a finance committee of five instead of eight, and that said committee may be selected at large by the Moderator, as recommended by the Board of Selectmen.
- Article 12. To see if the town will vote to authorize the Selectmen to sell, after first giving notice of the time and place of sale by posting such notice of sale in some convenient and public place in the town fourteen days at least before the sale, property taken by the town under tax title procedure provided, that the Selectmen or whosoever they may authorize to hold such public auction may reject any bid which they deem inadequate, or take any action relative thereto.
- Article 13. To see if the town will vote to sell the premises taken by it on tax lien against Joseph Raimo, et al, identified as Land Court Foreclosure Case No. 5226.
- Article 14. To see if the town will vote to transfer the following unused balances from loan orders viz: High School Committee \$1.90 and Stanley School, \$41.71, to the account of New High School building.
- Article 15. To see if the town will vote to appropriate to the Account of Unpaid Bills the sum of \$43.67 to cover bills contracted prior to January 1, 1936, and remaining unpaid at the time of closing the books for the year 1935: Soldiers' Relief, \$6.95; Tree Warden, \$12.11; Fire, \$24.61.
- Article 16. To see if the town will take action to refund to the chairman of the World War Honor Roll Committee money expended by him over and the above alloted appropriation, and appropriate two hundred and thirty dollars and twenty-four cents (\$230.24) for the same.
- Article 17. To see if the town will appropriate to the Account of unpaid Bills the sum of \$10,097.14 to cover the remaining unpaid bills of the Public Welfare Department prior to December 31, 1934.
- Article 18. To see if the town will appropriate to the Account of Unpaid Bills the sum of \$3,591.29 to cover the remaining unpaid bills of the Public Welfare Department prior to December 31, 1935.

Article 19. To see if the town will authorize the Board of Public Welfare to appoint one of its own members as agent and investigating officer and fix the salary of such an appointee at \$1200 and appropriate money therefor, as provided by Chapter 41, Sec. 4A, of the General Laws (Ter. Ed.)

Article 20. To see if the town will authorize the Board of Assessors, the Park Commission, the Board of Public Welfare and the Planning Board to appoint a member of such boards to act as secretary thereof and receive pay therefor, as provided by Chapter 41, Section 4A of the General Laws, Tercentenary edition.

Article 21. To see what action the town will take in relation to the appropriation or raising of money for permanent street construction.

Article 22. To see if the town will vote to resurface Thomas road, from Burrill street to Walker road, Farragut road from Thomas road to State road and Beach Bluff avenue, from Humphrey street to Atlantic avenue, with bituminus macadam and appropriate money therefor, as recommended by the Surveyor of Highways.

Article 23. To see if the town will vote to rebuild the iron fence under the Boston & Maine Railroad bridge on Burrill street and appropriate money therefor, as recommended by the Surveyor of Highways.

Article 24. To see if the town will vote to build a fence on Bay View drive for the protection of the public and appropriate money therefor, as recommended by the Surveyor of Highways.

Article 25. To see if the town will vote to appropriate a sum of money for the repair of the rail fence along the wall on Humphrey street at Blaney Beach, as recommended by the Surveyor of Highways.

Article 26. To see if the town will appropriate money for repairing the roofs of the wooden buildings at the town yard, as recommended by the Surveyor of Highways.

Article 27. To see if the town will vote to purchase the following equipment for the Highway Department: one motor driven sidewalk plow and one 5-ton truck to take the place of one that has been in service for the past ten years, as recommended by the Surveyor of Highways.

Article 28. To see if the town will vote to appropriate the sum of \$1,000 to clean the town beaches, as recommended by the Surveyor of Highways.

Article 29. To see if the town will vote to accept Sherwood road as a public way as laid out by the Board of Selectmen, in accordance with a plan made by W. W. Pratt, Town Engineer, and to appropriate money therefor, as petitioned for by George J. Place, et al.

Article 30. To see if the town will vote to accept as a public way Beverly road, so-called, in accordance with a plan made by W. W. Pratt, Town Engineer, dated February 4, 1932, now on file in the Town Engineer's office, and appropriate the sum of five hundred dollars (\$500) for the purpose of surfacing, oiling and grading the same, as petitioned for by Thomas S. Bubier, et al.

Article 31. To see if the town will vote to authorize and direct the Board of Selectmen to petition the General Court for legislation to enable the town of Swampscott to establish a Board of Public Works, as recommended by the Committee on Salaries and Wages, as petitioned for by James W. Santry, et al.

Article 32. To see if the town will vote to appropriate the sum of \$10,000 to be used by the Board of Selectmen in providing the required sponsors' contribution in providing Works Progress Administration projects, as recommended by the Board of Selectmen.

Article 33. To see if the town will vote to appropriate the sum of \$200 to be used on Recreational Projects No. 5123.

Article 34. To see if the town will vote to appropriate the sum of \$3,000 or such other sum as may be necessary to install new toilets in the Clarke school, as recommended by the School Committee.

Article 35. To see if the town will vote to relay the water main in Porter place, a distance of about 184 feet, and appropriate money therefor, as recommended by the Water and Sewerage Board.

Article 36. To see if the town will vote to relay the water main in Lawrence terrace, a distance of about 225 feet, and appropriate money therefor, as recommended by the Water and Sewerage Board.

Article 37. To see if the town will vote to relay the water main in Stearns street, a distance of about 200 feet, and appropriate money therefor, as recommended by the Water and Sewerage Board.

Article 38. To see if the town will vote to relay the water main in Aycliffe road, a distance of about 175 feet, and appropriate money therefor, as recommended by the Water and Sewerage Board.

Article 39. To see if the town will vote to relay the water main in Mountain avenue, a distance of about 265 feet, and appropriate money therefor, as recommended by the Water and Sewerage Board.

Article 40. To see if the town will vote to transfer from the Water Available Surplus \$5000 to Water Emergency fund, as recommended by the Water and Sewerage Board.

Article 41. To see if the town will vote to appropriate \$3950 to build a small fireproof building on southwest side of Central Fire Station to house fire alarm apparatus, also to purchase the repeater, transmitter, battery racks, terminal cabinet, etc., and to do all necessary work to put same in working order, as recommended by the Board of Fire Engineers.

Article 42. To see if the town will vote to remodel the building now located on the Highway Department land on Paradise road, known as the Tree Department Locker, so that all equipment of the department may be housed in one place, the building also to furnish a work shop for the department and appropriate money therefor, as recommended by the Tree Warden and Moth Superintendent.

Article 43. To see if the town will vote to purchase a power sprayer to supplement the one now in use, and appropriate money therefor, as recommended by the Moth Superintendent.

Article 44. To see if the town will vote to purchase a new 1½ ton truck for the use of the Moth and Tree Warden Departments and appropriate money therefor, as recommended by the Tree Warden and Moth Superintendent.

Article 45. To see if the town will vote to appropriate the sum of \$1,000 for the proper observance of the Fourth of July.

Article 46. To see if the town will vote to transfer the yard at the Clarke School or any portion of the same from the School Committee to the Park Department, for the purpose of a playground, as recommended by the Planning Board.

Article 47. To see if the town will vote to grade and equip as a play-ground the land described in the foregoing article and to appropriate money therefor, as recommended by the Planning Board.

Article 48. To see if the town will vote to transfer the yard at the Stanley School or any portion of the same from the School Committee to the Park Department for the purpose of a playground, as recommended by the Planning Board.

Article 49. To see if the town will vote to grade and equip as a play-ground the land described in the foregoing article and to appropriate money therefor, as recommended by the Planning Board.

Article 50. To see if the town will vote to transfer the yard at the Machon School or any portion of the same from the School Committee to the Park Department for the purpose of a playground, as recommended by the Planning Board.

Article 51. To see if the town will vote to grade and equip as a playground the land described in the foregoing article and to appropriate money therefor, as recommended by the Planning Board.

Article 52. To see if the town will authorize the Board of Park Commissioners to build 240 linnear feet of ten (10) row bleachers as specified by plan drawn by Town Engineer, to be located on one side of the new football field at

Phillips park, and appropriate five thousand dollars (\$5000) therefor, as recommended by the Park Commissioners.

Article 53. To see if the town will authorize the Board of Park Commissioners to build a locker building, as specified by plan of Town Engineer, to be located on Phillips park, and appropriate ten thousand dollars (\$10,000) therefor, as recommended by the Park Commissioners.

Article 54. To see if the town will authorize the Board of Park Commissioners to fill in another strip at Phillips Park, adjacent to east side and the length of the new football field, and appropriate five thousand dollars (\$5,000) therefor, as recommended by the Park Commissioners.

Article 55. To see if the town will authorize the Board of Park Commissioners to purchase playground equipment, as recommended by Planning Board, to be located at Jackson and Phillips Parks, and appropriate four hundred eighty dollars (\$480) therefor, as recommended by the Park Commissioners.

Article 56. To see if the town will vote to transfer the sum of \$7,000 from the Cemetery Lots fund and income to the account of Cemetery Improvement, for the purpose of continuing the work at the cemetery.

Article 57. To see if the town will vote to appropriate the sum of \$500 for the proper observance of Armistice Day, as petitioned for by the American Legion.

Article 58. To see if the town will vote to adopt the following by-law or some modification thereof for the purpose of regulating billboards or other outdoor advertising devices:

Section 1. Authorization. In conformity with the General Laws and lawful state regulations for the proper control and restriction of outdoor advertising devices, and without relaxing any restrictions on said devices imposed by such regulations, said devices in the town of Swampscott are hereby further restricted as provided in the following sections:

Section 2. Exemptions. This by-law shall apply exclusively to outdoor advertising within public view of any highway, public park or reservation. It shall not apply to signs or other devices controlled under the provisions of Section 1, 2 or 8, of Chapter 85, General Laws, or to signs or other devices on or in the rolling stock, stations, subways or structures of or used by common carriers, except advertising devices on bridges or viaducts or abutments thereof; and, except for lawful restrictions as to size and location, it shall not apply to signs or other devices which advertise or indicate either the person occupying the premises in question or the business transacted thereon or advertise the property itself or any part thereof as for sale or to let and which contain no other advertising matter. It also shall not apply to any advertising device legally permitted and maintained on the date of the taking effect of this by-law, until one year after the first day of July next following said date.

Section 3. Definitions:

"Advertising devices" shall mean billboards, painted bulletins, poster panels, signs, placards and other outdoor units designed to call public attention to the matter displayed thereon.

"Advertising sign" or "sign" shall mean any outdoor advertising device. "Sign-board" shall mean any structure designed for displaying an outdoor advertisement.

"Highway" shall mean any public way.

"Public Park" shall mean a piece of public land of at least five thousand

square feet set apart for beauty and public enjoyment.

"Public reservation" shall mean a piece of public land set apart for recreational use, as a state or municipal forest, as a protection to a public water supply, as a memorial, or cemetery, or as a place of unusual scenic or historical interest.

"Permitted" shall mean authorized by an official permit.

"Display" shall mean to make or maintain visible from any highway, public park or reservation.

"Area" of a sign or signboard shall mean the area of the face view of the entire device, including all attachments except supports and lattice at the base thereof.

"Residential District" shall mean any area zoned as residential.

"Non-conforming business" shall mean a business located in a residential or rural district, other than such rural business as farming or the raising and sale on the same premises of farm, garden or orchard products.

"Lawful sign" shall mean any outdoor advertising device not prohibited

by any provision of law or by any lawful regulation.

"Accessory sign" shall mean any outdoor advertising device which carries only advertisements strictly incidental and subordinate to a lawful use of the premises on which it is located, including signs indicating business transacted or goods sold or produced on the premises or an occupant thereof, but not including any sign sold or rented to an outside party.

"Sign on a wall" shall mean a sign closely attached throughout to and

facing with that wall, or in a window or door therein.

shall mean a plot of ground containing and devoted to the purposes of a building, or laid out to contain a building, with all required open spaces; or a larger tract of unbuilt, undivided land under one ownership.

General Restrictions. No person, firm, association or corpor-Section 4. ation shall be permitted or allowed to erect, display or maintain any billboard or other outdoor advertising device, not exempted by Section 2 hereof, except those specified in paragraphs (a) (b) (c) (d) and (e) of this section.

In districts not of a residential or rural character, any lawful sign on or attached to a wall of a building or any lawful ground or roof sign or sign board no part of which extends over fifteen feet above the

part of the ground or roof on which it stands.

- In a residential or rural district, any lawful accessory sign or signs not exceeding five square feet in aggregate area on any one building or lot; or any lawful sign or signs advertising only the sale or rental of the premises, not exceeding a total area of ten square feet; or, on the premises of any public building, or of any farm, garden, treenursery or forest, any lawful accessory signs not exceeding all together fifteen square feet in area within the limits of said premises; or any lawful accessory signs on the front wall of any building occupied by a non-conforming business.
- Any lawful sign not exceeding thirty-two square feet in area displayed by the town, or any sign displayed by the United States, the state or the county, relative to government business.
- At any boundary line of the town a lawful sign not exceeding five square feet in area indicating the meetings of any civic organization located therein.
- On property owned or principally occupied by a religious, civic or charitable organization, association of war veterans or the like, any lawful accessory sign displayed by written permission of the Selectmen and approval of the inspector of buildings if any, for a limited period not exceeding sixty days.
- Section 5. Set-backs. No advertising sign or signboard shall be permitted or allowed to be so located as to obstruct a view between any points on connecting streets within fifty feet of a corner of the rights of way; or to obstruct any door, window or fire excape on a building; or, if on a roof, to be set nearer than one-half its height to the wall thereof on a street front; or, in a residential district, to extend more than six inches nearer to any boundary of the lot or premises on which it is located than it would be lawful to maintain a building, except as provided in paragraph (d) of Section
- Section 6. Prohibitions. Except signs exempted under Section 2, no person, firm, association or corporation shall be permitted or allowed to erect, display or maintain any billboard or other outdoor advertising device in any district.

- (a) Except the owner or a tenant occupant of the premises where it is located, or a party holding written permission from either to display the device for a limited period, which party's name shall be conspicuously displayed thereon;
- (b) Upon any rock, tree, fence or pole;
- (c) Within one hundred feet of any church, public building, monument or memorial, or within three hundred feet of any public park, playground, or public reservation, if within view from any portion thereof; except that this paragraph shall not apply to accessory signs on the walls of buildings;
- (d) If it contains any obscene, indecent or immoral matter;
- (e) Unless all parts and attachments and the ground about the base there of are kept in neat and safe condition.
- Section 7. Administration. No advertising device for which a permit from any state authority is required shall be erected, displayed or maintained in the town until five days after a permit therefor, or a true copy thereof, has been filed with the Town Clerk. Whenever notice of an application for such a permit is received by the Town Clerk, he shall immediately transmit it to the Inspector of Buildings or other officer, if any, charged with the administration of this by-law. Such officer, or in the lack of such officer, the Town Clerk, shall thereupon make an examination of the case and, as promptly as possible, within thirty days of the receipt of the application by the Town Clerk, shall send written notice to the state authority to whom the application is addressed, stating whether or not the proposed advertising device would violate any provision of this by-law, and, if so, what provision. Like notice shall be sent also to the applicant and to the owner or tenant of the proposed location of the device.

At least twenty-five days before an outdoor advertising device not requiring a permit from any state authority and not exempted under Section 2 shall be erected or displayed in the town, a description thereof and of its proposed location shall be filed with the town clerk, after which the procedure shall be the same as prescribed in the preceeding paragraph in the case of an application for a state permit, except that notice whether or not the device would violate any provision of the law shall be sent, within twenty days after receipt of the description, only to the party filing the same and to the owner or tenant of the proposed location.

Section 8. Penalties and Enforcement. Whoever violates any provisions of sections 4, 5 or 6 hereof, shall be guilty of a misdemeanor and shall be punished by a fine of not more than one hundred dollars, and whoever after final conviction for such violation unlawfully displays such outdoor advertising device for twenty days shall be punished by a fine of not more than five hundred dollars.

The Selectmen or any officer charged with the enforcement of this by-law shall cause any such violator to be prosecuted; and shall notify the state regulatory authority of Outdoor Advertising of any and all violations of lawful state regulations.

Any town officer or any interested party may petition the Superior Court in equity to enjoin the erection or maintenance of any outdoor advertising device erected or maintained in violation of any provision of this by-law. Town officials shall have the same right and power to cause the removal of any outdoor advertising device as of any structure or building maintained in violation of a by-law.

- Section 9. If any provision of this by-law is declared unconstitutional or illegal by any court, the validity of the remaining provisions shall not be affected thereby.
- Section 10. All regulations for outdoor advertising devices heretofore adopted by the town and in force at the time of the adoption of the foregoing sections are hereby repealed.
- Article 59. To appropriate and raise by borrowing or otherwise, under any general or special law which authorizes the town to raise money by borrowing or otherwise, such sum or sums of money as may be necessary for any or all of the purposes mentioned in the foregoing articles.

The polls will close at 6:00 P.M.

And you are directed to serve this warrant by posting an attested copy thereof at the Town Hall, the Post Offices, at least one public and conspicuous place in each precinct in the town, and at or in the immediate vicinity of each railroad station in the town, seven days before the day appointed for said meeting.

Hereof fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this sixteenth day of January, A.D., 1936.

PHILIP E. BESSOM, LESTER B. MORLEY, R. WYER GREENE, Selectmen of Swampscott.

A true copy. Attest: FRANK H. BRADFORD, Constable.
